The Selectors will take the following criteria into account when making their decisions and have due regard to the relevant statistical evidence available to them. Some international shows will only accept athletes who are highly positioned on the World Rankings, therefore this may restrict the selector's choice for certain competitions.

8.1.1. The athlete/horse combination's results will be a prime factor in selection but weighting will be given to the standing of the competition, the difficulty of the courses, the surface and conditions, the competitiveness of the fields and the rate of progress of the combination. The Selectors will monitor the results from International Shows and National shows. Results from BS International Stairway classes will be particularly important for combinations that have no or few international results. Combinations double clear jumping rounds will have priority over other results.

8.1.2. The physical conditions in which the Shows will be held and the potential impact of those conditions on the athlete/horse combinations' performance.

8.1.3. The fitness and soundness of the horse. The advice of the Senior British Team Veterinary surgeon or another Veterinary surgeon may be sought. Athletes are obliged to notify the PM of any change in their horse's health status at any time after selection.

8.1.4. The fitness of athletes to compete to their full potential. The professional opinion of an independent medical practitioner may be sought to verify the fitness of the athlete for selection. Athletes are obliged to notify the PM of any change in their health status at any time after selection.

8.1.5. The willingness and demonstration of the athlete and their accredited owners, grooms, coaches, home team's or others that may be assisting to contribute positively to the Team environment on and off the field of play and the Objective of the Selection Policy.

8.1.6. Ability to produce peak performances in conditions similar to the Show.

8.1.7. Riders results on an athlete's other horses.

8.2. The Selectors may ask athletes and horses to participate in specific training, tests or competitions where they deem this appropriate and necessary prior to selection and the Performance Manager (PM) will inform the athletes concerned of the details regarding these requirements. Failure to participate may result in the athlete being de-selected.

8.3. CSIO SELECTION CRITERIA

For CSIO, in addition to the GENERAL CRITERIA listed above;

- Most weight will be given to results, especially double clear rounds, gained in Nations Cup and Grand Prix classes: 5* carrying more weight for CSIO5* selection than 4*; 4* carrying more weight for CSIO4* selection than 3*.
- Meeting the Objectives of the Policy especially where there is a need to give an athlete / horse combination experience at 5* if it has only competed 4* and 4* if it has only competed 3* to date.

8.4. CSI-W SELECTION CRITERIA

8.4.1 Under FEI Rules (see below) athletes placed in the top 10 of the relevant FEI Longines Ranking List (see FEI Rules) will have priority for selection: If there is no such GBR athlete then GBR athletes ranked 11th – 100th will have priority for selection in order of their ranking. https://inside.fei.org/sites/default/files/WCJ_Rules_2018-19_approved_BM-2018.03.28_clean_update_2018.11.17.pdf

The GENERAL SELECTION CRITERIA will be applied in order to achieve the primary objective for GCT Shows therefore results from 5* level Nations Cup and Grand Prix will carry the greatest weight.
