Introduction

The Rules in this book are established so that competitors may compete against each other in showjumping competitions under fair conditions. They can, however, never cover every eventuality. Matters that cannot be solved by interpreting the Rules to the letter should be resolved by following as nearly as possible the spirit of the text to obtain the solution that is fairest to all competitors.

This handbook supersedes all previous publications and is subject to change from time to time by the Board in respect of operational/exceptional matters.

Equality Statement

British Showjumping is fully committed to the principles of equality of opportunity and aims to ensure that no individual receives less favourable treatment on the grounds of age, gender, disability, race, ethnic origin, nationality, colour, parental or marital status, pregnancy, religious belief, class or social background, sexual orientation or political belief. Including all those involved in whatever capacity, riders, employees, coaches, officials, other volunteers and spectators.

British Showjumping will ensure, wherever it is reasonable and within British Showjumping's direct control, that there is open access to all those who wish to participate in all aspects of equestrian activity and that they are treated fairly.

Welfare of The Horse

See Annex A at the end of Section 1.

Code of Conduct for Junior Members

AREA REPRESENTATIVES AND COMMITTEES

(Scotland, England and Wales)

- 2**(a) A Representative for each Area (the “Area Representative”) shall be appointed in accordance with the following procedure:
 - (b) Any vacancy will be advertised on the British Showjumping website and is open to any Member of British Showjumping who resides in the relevant Area. An appointment will be made following a selection procedure which will involve submission of a CV and an interview.
 - (c) The person appointed as Area Representative will hold this position for a three year term.
 - (d) At the end of the term, provided the Area Representative wishes to continue and satisfactory reports have been received during their term, they will be given a further three year term.
 - (e) If a vacancy occurs during the three year term then the position will be filled using the above process (2b).
 - (f) The Chief Executive, in consultation with the relevant Development Officer, shall have the overriding right to remove any person from the position of Area Representative at any time.
- 3** The affairs of each Area shall be managed by an Area Committee chaired by the Area Representative, and made up as follows: A maximum of two Members may be related and persons on the Committee should have a variety of interests thereby giving the broadest possible mix of stakeholders.
 - (a) Four Committee Members elected by Members within the Area.
 - (i) Following the appointment of the Area Representative, nominations for the Committee will be invited from Members residing in the relevant Area by filling out the nomination form. The proposer and seconder must be Members of British Showjumping and reside within the relevant Area.
 - (ii) In the event of more than four nominations being received, there will be an election using online voting.
 - (iii) The four nominees receiving the most votes will be elected for the term of the Area Representative.
 - (iv) Where nominations received are insufficient to require a ballot, those nominated are automatically elected to serve on the Area Committee. In such cases where fewer than four nominations are received, the Area Representative will appoint such number as required to make the numbers up to eight members of his/her Committee.
 - (b) Four Members appointed by the Area Representative.
 - (i) Following the Area election, the Area Representative shall appoint a further four Members of the Area with meetings, voting and eligibility rights (Rule 32.2) to serve on the Area Committee.
 - (ii) If the four elected Members do not include at least one Member aged under 25 as at 1 January following the election, then at least one of the four Members appointed by the Area Representative must be so aged.
- 4** Members of the Area Committee will take office after their election and will serve for the term of the Area Representative. At the end of the term, whether or not the previous Area Representative is given a further term, the elected committee members will stand down and an election will be held. Previous Committee members are eligible to be nominated for a further term.
- 5** Casual vacancies arising among the elected members of the Area Committee shall be filled by the Committee by co-option. Casual vacancies arising among the appointed Members shall be filled by the Area Representative by further appointment.

- 6** Any general meeting of an Area can be held as, when and where the Area Committee shall appoint and a general meeting of an Area shall be convened by the Area Committee on a request in writing signed by not less than one-fifth of the Members of the Area entitled to attend and vote at general meetings of that Area. Any general meeting of an Area shall be called by 21 days' notice in writing and/or via appropriate websites, at the least and shall be exclusive of the day upon which the notice is served or deemed to be served and of the day for which it is given, and shall specify the place, the day and the time of the meeting and of the general nature of all business to be transacted thereat.
- 7** No business shall be transacted at any general meeting unless a quorum of Members is present at the time when the meeting proceeds to business; save as herein otherwise provided, 10 Members of the Area present in person and entitled to vote shall be a quorum. If, within half an hour from the time appointed for the meeting, a quorum is not present, the meeting shall stand adjourned to the same day in the next week, at the same time and place or to such place as an Area Committee may by not less than two days notice to the Members of the Area prescribe, and if at the adjourned meeting a quorum as above defined is not present within half an hour from the time appointed for the meeting, the Members present shall be a quorum.
- 8** The Area Representative shall be the Chairman of the Area Committee and of general meetings of the Area. If at any meeting of the Area Committee or at any general meetings of the Area he is not present within five minutes of the time appointed for holding the same, or, being present, unwilling to take the Chair, the members of the Area Committee present shall elect one of their members to be Chairman of the meeting.
- 9** If at any general meeting of an Area a resolution is put to the vote it shall be decided on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded:
- (a) By the Chairman; or
 - (b) By at least three members of the Area present in person and entitled to vote. Unless a poll be so demanded, a declaration by the Chairman that a resolution has, on a show of hands, been carried or carried unanimously or by a particular majority, or lost, and an entry to that effect made in the book containing the minutes of proceeding of the Area, shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against such resolution. The demand for a poll may be withdrawn.
- 10** Except as hereinafter provided, if a poll is demanded, it shall be taken in such a manner as the Chairman directs, and the result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.
- 11** In the case of an equality of votes, whether on a show of hands or on a poll, the Chairman of the meeting at which the show of hands takes place or at which the poll is demanded, shall be entitled to a second or casting vote.
- 12** A poll demanded on any question shall be taken forthwith.
- 13** The only Members of an Area entitled to vote at any general meeting of the Area, shall be those entitled to vote at any general meeting of British Showjumping. No Member of an Area shall be entitled to receive notice of any general meeting of the Area or be reckoned in any quorum unless entitled to receive notice of or be reckoned in any quorum of a general meeting of British Showjumping, provided

that any accidental omission to enforce this rule shall not invalidate any resolution passed at the meeting.

- 14** Every Member of the Area entitled to vote at any general meeting thereof shall have one vote upon a show of hands or upon a poll, provided that a Member representing two or more Affiliated, Company or Regimental Members shall be entitled to two votes only. Voting by proxy shall not be allowed.
- 15** The duties of an Area Representative are defined under the Area Representative's role description, a copy of which can be obtained on request to the Chief Executive.
- 16** Each Area Committee shall hold at least two Committee meetings in each year in addition to an AGM.
- 17** Subject to the provisions of these Rules and Regulations, each Area Committee may meet together for the despatch of its business, adjourn and otherwise regulate its meetings as it thinks fit. Questions arising at any meeting of an Area Committee shall be decided by a majority of votes. In the case of an equality of votes, the Chairman shall have a second or casting vote, but no other Member shall be entitled to more than one vote. It shall not be necessary to give notice of a meeting of an Area Committee to any Member thereof for the time being absent from the United Kingdom. The quorum necessary for the transaction of the business of an Area Committee shall be three.
- 18** A Member of an Area Committee shall vacate office:
 - (a) If he shall cease to be qualified to be a Member thereof.
 - (b) If by notice in writing to the Area Representative he resigns his office.
 - (c) If by a resolution passed by a two-thirds majority of the Area Committee present at a meeting whereat not less than two-thirds of the Members thereof shall be present, he is removed from office.
- 19** Each Area Committee shall keep records and minutes:
 - (a) Of all meetings of the Area Committee and of the Area.
 - (b) Send a copy of audited accounts annually to the Chief Executive.
- 20** Notices may be given to any Member of the Area either personally or by sending it by post to him to the address within the Area supplied by him to the Area Committee for giving notices to him. Where a notice is sent by post, service of the notice shall be deemed to be effected by properly addressing, pre-paying and posting a letter containing the notice, and to have been effected in all cases on the date upon which such letter is posted. The accidental omission to give notice of a meeting to, or the non-receipt of notice of a meeting by any person shall not invalidate the proceedings of that meeting.

Training Programme Information

The NAF British Showjumping PONY Five Star Performance Awards

Designed as a series of progressive standards that provide riders with a focus for their training, improved performance in the ring and improved stable management skills. In the same way as the HORSE Five Star, this is a progressive training programme, starting from instilling the correct basics and fundamentals through to encouraging the young riders' progression to competitive pony riding and supporting their step onto horses. The aim of the programme is also to instil stable management knowledge, respect of the Rules, as well as ethics of sportsmanship and recognition of good performance over results, all of which can be delivered through the Junior Academies.

The Five Star programmes are aimed at helping riders to develop specific performance skills through training, either through British Showjumping training organised at Area or Regional level or through private training, or Junior and Senior Academies. It aims to provide some clear goals and competencies that riders can strive for and achieve recognition. The Awards are open to any current British Showjumping Member riding a horse or pony.

The NAF British Showjumping HORSE Five Star Performance Awards

This programme delivers comprehensive training and a positive structure. With a series of progressive standards, the Five Star award programme provides clear goals and competencies for all levels and abilities to strive for.

The five stages are carefully structured to guide riders and their horses, with the aid of your chosen British Showjumping Coach, along a progressive path of training, helping you to acquire the necessary skills and expertise needed to support your development.

The Five Star Performance Awards can be taken by any British Showjumping Coach and can be arranged between the rider on either a one-to-one basis or in group training sessions.

Junior Academies

Aim to provide progressive coaching rather than one-off training sessions, using experienced British Showjumping Coaches to significantly improve the riding skills and horse knowledge of the pony membership in order to make them more competitive in the sport of showjumping. It also opens the door for junior and young riders of all standards and experience, combining solid training and encouragement with camaraderie and a sense of teamwork.

The Junior Academies focus on developing a 'culture of improvement'. By offering progressive, structured coaching, Junior Academies aim to develop a greater understanding across all areas of horsemanship and recognise there is more to the sport than just riding.

As a Junior Academy member you are also eligible to compete against other teams in an inter-academy competition, which is run on an annual basis.

The NAF Shining Star Award

Is achieved monthly with candidates having been identified to receive the Award by the Lead British Showjumping Coaches of all Junior Academies. Nominations can be based on any aspect of the Junior Academy: commitment, progression, outstanding behaviour or riding abilities. The winners each month receive a certificate of their

achievement, products from NAF and press coverage within *British Showjumping* magazine.

Senior Academies

Provide a formalised structure through which to deliver senior mounted and dismounted sessions, such as working through the Five Star Awards.

Work Based Modern Apprenticeships

British Showjumping has formed a partnership with accredited work-based training provider Haddon Training to provide formal work-based programmes and apprenticeships. The core focus of this partnership is to assist individuals, who have opted to work within an equestrian environment, in gaining formal qualifications that may support them in their career development.

Haddon will design a training programme to meet the learner's needs, based on the learner's age, workplace setting and previous experience.

Through Haddon, learners have access to diplomas, apprenticeships at Levels 2 and 3, which are nationally recognised qualifications and are equivalent to GCSEs and A Levels (respectively), with the Level 3 gaining UCAS points.

These qualifications can be gained in various subjects. The modules can be chosen to suit the individual's wishes. Options include horse care, breeding, training the young horse, care of the performance horse to name a few.

The programmes are all focused around work-based learning and being able to document and demonstrate evidence of meeting the course criteria, which in most circumstances can be done in the learner's normal working environment.

For further information about any of our training programmes please visit www.britishshowjumping.co.uk or contact your Regional Development Officer.

British Showjumping and Haddon Training Ltd. have come together to offer selected talented riders the chance to improve their skills while learning how to manage all aspects of life in a professional sport. This Level 3 programme offers riders the chance to continue their education, gaining a nationally recognised qualification in a relevant and inspiring environment while simultaneously benefiting from a comprehensive training and support programme delivered from Showjumping's top Coaches and experts.

Further information regarding the Young Professional Programme can be found at www.britishshowjumping.co.uk/training/Young-Professional-

International Experience

Horses are identified through results linked to different age groups or through viewing of the horses.

The development of the horses is monitored against a pre-determined (but flexible) pathway with the aim to have horses qualified to compete and challenge for medals at the 2018 World Equestrian Games and Tokyo 2020.

Further information regarding the Equine Pathway can be found at www.britishshowjumping.co.uk or www.equestrianteamgb.co.uk

OVERLOADING YOUR HORSEBOX? UPDATING COULD BE THE ANSWER

SvTech Ltd can uprate most lightweight horseboxes by up to 400kg, ensuring you can carry two horses safely and legally. Within licence restrictions, we are able to uprate some 7,500kg to 8,000kg. This provides vital payload capability when carrying an extra horse and/or tack and offers peace of mind for the owner. SvTech has carried out extensive work and testing on lightweight models and has covered uprates for most lightweight vehicles.

If you're unsure, or don't believe that you need to uprate your lightweight horsebox, try taking it to a public weighbridge when you're fully loaded with your horse, tack, passenger, hay, etc and weigh off each axle individually and the vehicle as a whole. There could be a distinct chance that you've overloaded one of the axles, even if you're within the GVW. If there is a problem, we can help.

If you know your unladen weights, try using SvTech's free Load Distribution Programme, available on PCs, tablets and phones at www.svtech.co.uk/lda because this will help you stay safely within your GVW and axle weights.

SvTech, by invitation, will also visit your local Equestrian Centre or show to offer free weight checks to horsebox users.

Call SvTech on 01772 621800 to discuss your requirements.

Riders who do not advise British Showjumping of winnings attained when competing abroad will be subject to a possible maximum fine of up to £5,000 being imposed.

Evidence of age below 8 years in the form of a horse passport or veterinary surgeon's certificate, including identity diagram, must be provided. In the absence of such evidence, horses will be graded with 2000 points, and ponies 700 points.

- 2 Horses and ponies imported from Ireland will be graded in accordance with their points as reported by the Showjumping Association of Ireland by converting points to pounds sterling by multiplying by a factor of three for horses jumping up to 1.20m and for horses jumping 1.20m and above by a factor of nine and by a factor of 3.5 for ponies. Ponies' records will also be checked with the FEI. Any pony with international winnings over 1.20m will automatically be graded as a JA.
- 3 Horses imported from any other foreign country will be graded as decided by the Chief Executive on the basis of any winnings reported by the National Federation and any other relevant information.

65 Upgrading

- 1 As soon as a horse has won an amount that places it in a higher grade, it must not be jumped in competitions for which it is no longer eligible even though it may already have been entered and the competition is to be held on the same day. The show organising committee will either refund the whole entry fee or will allow the entry to be transferred to a competition for which the horse is eligible on payment of any additional entry fee required. This procedure also applies if a horse is entered in a competition (e.g. Foxhunter, Newcomer) in which the conditions specify a maximum level of winnings and the horse subsequently exceeds this level before starting.
- 2 No horse, except as outlined in Rule 65.1, will be upgraded without the express

approval of the National Sport Committee. The owner of a horse in Grade C may request permission from the Board in writing at any time for that horse to be upgraded to either Grade B or Grade A and the owner of a horse in Grade B may similarly request for that horse to be upgraded to A. The grading record of a horse so upgraded will be adjusted to the bottom limit of the higher grade and the horse will thereafter be eligible only for competitions in accordance with its adjusted winnings and any further winnings after such upgrading. Under no circumstances will a horse upgraded in this manner be allowed to revert to a lower grade. The new registration fee to be applied pro rata. Similarly, a Grade B with £1,500 actual will cost £500 to upgrade.

Requests for stallion upgrades to be referred to the British Showjumping Stallion Committee in the first instance.

The cost of upgrading will be the difference between the horses/ponies actual winnings and the points limit of the grade requested. I.e. A Grade C horse with winnings of £560 wishing to upgrade to a Grade B will cost £440 to upgrade, However a Grade C horse with actual winnings of £1000 or more will have no upgrade charge but will incur a £10 admin charge.

66 Grade Limits

The grading limits are as follows:

1	Horses	Total Points	Ponies	Total Points
	Grade A	2000 and over	Grade JA	900 and over
	Grade B	1000 to 1999	Grade JC	150 to 899
	Grade C	Nil to 999	Grade JD	Nil to 149

67 British Showjumping League Overview

British Showjumping adheres to a four tiered league system that reflects horse/rider combination performances.

Depending on the tier level, the league lists are used to identify horse/rider combinations that are eligible to be invited to their respective League Semi Final competitions or Championship Shows.

All members being placed or jumping double clears at any British Showjumping or FEI show within the United Kingdom are awarded points. The league structure rewards consistency across a level playing field. In addition, the league tables offer a progressive environment with a genuine prospect for all level of riders to qualify for a Championships hosted at Horse of The Year Show or The London Spring International Horse Show.

The four tiers of leagues are hosted on the British Showjumping website and are accompanied by the FEI World Ranking List to identify Rider Rankings for those competing internationally.

In addition to the leagues there is a Top Horse list based on National and FEI winnings, and an Owners list which is explained in Rule 68.

The leagues run from 1 April – 30 September and 1 October – 31 March.

The four tiers of leagues are as follows:

Club Leagues

The Club leagues are regional league tables consisting of points awarded to Club

Members competing within Club Shows at a height of 70cm – 1.00m. Points are awarded to Horse/Rider or Pony/Rider based on results. The Club league ranking list is used to invite Club Members to contest Club League Championships.

Bronze Leagues

The Bronze leagues are regional league tables consisting of points awarded to National Members competing in all classes with 1st rounds heights between 90cm – 1.10m. Result based points are awarded on a Horse/Rider combination basis. The top 15 horse/rider combinations on each of the Bronze leagues will be invited to contest a Semi Final with the chance to qualify for a Bronze League Championship Final at Horse of the Year show.

Rider Eligibility

The following riders are exempt from the Bronze League **Championships and finals and will not appear on the league tables:**

- (As of 01.04.2017) No rider will be eligible for the Bronze League Final if they have another horse in the Silver League during the respective league period. Furthermore, riders who accumulate points in the Silver League will be ineligible to participate in the Bronze League Direct Qualifiers/Semi Finals or Championship for one year (Summer and Winter League period).
- Any rider that has jumped on a 4* or 5* Nations Cup Team (2003 onwards) is not eligible for the Bronze League Final.
- Club Members
- Any riders who have been awarded FEI points within five clear calendar years prior to the year of the Championship Final
- 5 results at 1.35m within a league period move the horse/rider into the Gold League
- Result/s at 1.40m and above automatically move horse/rider into the Gold League.

Silver Leagues

The Silver leagues are regional league tables consisting of points awarded to National Members competing in all classes with 1st round heights between 1.10m – 1.30m. Result based points are awarded on a Horse/Rider combination basis. The top 15 horse/rider combinations on each of the Silver leagues will be invited to contest a Semi Final with the chance to qualify for a Silver League Championship Final at Horse of the Year Show.

Rider Eligibility

The following riders are exempt from the Silver League **Championships and finals and will not appear on the league tables:**

- Any rider that has jumped on a 4* or 5* Nations Cup Team (2003 onwards) is not eligible for the Silver League Final.
- Club Members
- Any riders who have been awarded FEI points within five clear calendar years prior to the year of the Championship Final
- 5 results at 1.35m within a league period move the horse/rider into the Gold League
- Result/s at 1.40m and above automatically move horse/rider into the Gold League.

Gold League

The Gold league is a national league which reflects results for horse/rider combinations that have five registered results or double clears at 1.35m. Any results at 1.40m or above automatically move horse/rider into the Gold League for 3years/6 consecutive league periods. Five results at 1.35m within a league period move the horse/rider into the gold league for 3 years/6 consecutive league periods. Result based points are awarded on a Horse/Rider combination basis. The two highest placed riders that are eligible for British Team selection on the Gold league list, as defined in the HOYS schedule, will be invited to compete at HOYS. The invites will be

extended down the line should they be declined or the rider receive an invite via the FEI Ranking List, the HOYS League Table or via one of the HOYS Wild Card shows.

Pony League

Pony National Leagues run from 1 April – 30 September and 1 October – 31 March. In addition to the Bronze and Silver regional leagues there is a national Gold League. The Gold League is split into the three height categories of 128cm, 138cm and 148cm.

Points are allocated, based on pony/rider combination therefore a pony may well sit within more than one league with different riders, in addition to appearing in an individual league more than once.

The league that the pony and rider appear in will be dictated on their last results. So should points be gained in a Silver League class, the combination will move from the Bronze League into Silver for the remainder of the league period. At the start of the new league period on 1 October and every six months thereafter all pony/rider combinations will start again at zero enabling them to move back down should they prefer.

The top 5 pony/rider combinations per height category will be invited to contest a Bronze/Silver League Championship Final at the British Showjumping National Championships.

Pony riders with points in the Gold League will not be eligible for the Bronze League Final.

Pony/rider combinations which qualify from the league tables to the Finals, held at the National Championships, must remain in the league in which they have qualified for until the National Championships.

73 Affiliation

- 1 This Rule sets out the basis upon which applications for affiliation of shows will be considered by British Showjumping and all Show Organisers, and/or Members wishing to apply for affiliation for a show must comply with these Rules.
 - 1 It is a condition of affiliation that a Show Organiser is appointed who must be a fully paid up Member of British Showjumping in one of the following categories: Show Organiser, Life, Full/Jumping, non jumping, owner, Official or Company.
 - 2 Any applications for affiliation not made in accordance with this Rule may be refused.
 - 3 British Showjumping will designate dates for certain competitions, such as National Championships. These will be so identified in the show calendar and British Showjumping reserves the right to change or amend the dates if and when necessary.
 - 4 It is an automatic condition of affiliation that:
 - (a) Shows should reimburse Judges with all out of pocket expenses to include, but are not limited to, travel and accommodations costs. British Showjumping pays mileage at the present time based on 40p per mile. Further to this, Show Organisers are expected to make their own arrangements for any accounting or tax that might arise from any such payments.
 - (b) International shows held in the U.K. must invite a member of the British Showjumping Board to be on the Show's Organising Committee.
 - 5 British Showjumping reserve the right to vary or withdraw affiliation at any time and without giving reasons.

6 For the avoidance of doubt British Showjumping are not responsible for Officials (Judges, Course Designers or Stewards) at unaffiliated shows.

2 Procedure for Applications

- 1 Show Organisers will be required to attend their Regions Dates Meeting. All applications for affiliation must be submitted to British Showjumping online through the British Showjumping website to reach the British Showjumping Office by the date advised. Such dates will be sent to Show Organisers by e-mail.
- 2 As soon as reasonably practicable after the deadline for the submission of applications received online, British Showjumping will publish online a live calendar. During the period of 14 days following publication of the live calendar, a Show Organiser may cancel applications without forfeiting the booking fee or request with their Development Officer a change of category, which may be possible. However, unless it benefits the calendar, adding dates or changing dates or show type are not permitted.
- 3 At the end of the period referred to in 2.2 above British Showjumping will publish a confirmed online calendar of show dates. Once the calendar is confirmed any cancellation of dates will forfeit the booking fee. British Showjumping accepts no liability for the clashing of show dates.
- 4 Applications for affiliation or for change of show dates subsequent to affiliation received after the confirmed calendar has been published on the British Showjumping website will only be accepted in exceptional circumstances, be subject to the mileage policy and at the discretion of the Shows Development Officer if it is in the interests of British Showjumping and its Members as a whole.

3 Applications for affiliation

- 1 Applications may be refused if, at the discretion of either the Board and/ or the Chief Executive, affiliation would not be in the best interests of British Showjumping or its Members as a whole.
- 2 Where possible, events in the same region should avoid running shows on the same dates, particularly where the shows concerned include qualifying competitions in the same category.

4 Consideration of applications

- 1 Applications will be considered by the Chief Executive.
 - 2 Any Show Organiser dissatisfied with the Chief Executive's decision as to affiliation may request the matter be considered by the Board.
 - 3 The Board reserves the right to accept, refuse or withdraw affiliation without stating its reasons for so doing.
- 5
- 1 Development Officers shall use their best endeavours in organising show dates within their regions so that shows, wherever possible, avoid running shows on the same dates.
 - 2 Show Organisers are under a duty to consult with their Development Officer and also to use their best endeavours to organise their shows on dates that do not clash with shows in the same region.

6 Media Rights

All rights (including rights to income) in relation to all moving images (including but not exclusively from television, radio, film, video, DVD, internet, telephone or other media or data) and all broadcasting, recording and distribution rights to any affiliated event (excluding any rights reserved to the FEI) shall belong to British Showjumping. Any agreement by any Show Organiser with any third party in relation to such rights must be subject to the provisions of this Rule and having first obtained the written consent of the Chief Executive.

7 Insurance

The granting of affiliation to British Showjumping automatically confers upon the show in question the benefit of inclusion under British Showjumping's legal liability insurance policy. The limit of indemnity of this policy is £30,000,000 for any one incident.

8 Show Organiser

It is the responsibility of the Show Organiser and/or the promoting body to:

- (a) Comply with all the appropriate regulations relating to all health and safety requirements, provision of medical services and supplies and fire precautions.
- (b) Ensure the health and safety of all persons, whether they are Organisers, Officials, participants or members of the public or any other person who may be affected whilst at the event.
- (c) Ascertain from the appropriate authorities the extent and nature of any such obligations.
- (d) British Showjumping strongly recommends that First Aiders at shows should have some form of identification in order that they may be instantly recognised. Additionally, the qualification of the First Aider/medical cover must be displayed in a prominent position, i.e. Show Organiser's office.
- (e) Charges for first aid may only be applied should external medical cover be provided.

9 Drones

Due to Health and Safety Regulations, Drones are not permitted at British Showjumping events

74 Affiliation Fees

- 1 Affiliation to British Showjumping is conditional on agreement to pay British Showjumping the category booking fee payable at the time of acceptance of affiliation with the remainder of the affiliation fee being invoiced after the show. Shows may opt to pay by direct debit which defers payment of booking fees until February for summer dates and August for winter dates.

For summer and winter shows the fees are as follows:

Booking Fee – £25.00 per show day. VAT should be added to this fee where applicable to the Show Organiser. Note this booking fee is treated as a payment on account and is deducted, after the show has run, from the total affiliation fee payable.

In order to calculate affiliation fees, results from shows are required to be returned to British Showjumping within seven days from the end of the show. (This is the responsibility of the Judges in accordance with Rule 34.6.6.)

Affiliation Fee – The maximum total affiliation fee per day payable by category of show net of VAT will be as follows:

Category 1	£100
Category 2	£150
Category 3	£200
Pony	£50

Depending on the fees of the categories being combined, the higher level category fee decides the level of fee.

Where more than two arenas are used at any show there will be a supplemental charge of £35 net of VAT, per arena, per day.

- 3 A final schedule incorporating any alterations required by the Chief Executive must be submitted to arrive at the British Showjumping Office not less than one month before the first day of the show. The British Showjumping Office will not despatch show documentation before the final schedule is received.
- 4 Only in exceptional circumstances may any alterations or additions be made to the competitions or other conditions published in the final schedule without the express permission of the Chief Executive, which must be in writing. Should any such addition or alteration be made, the Judge concerned must forward a written report of the circumstances to the Chief Executive when returning the results.
- 5 Any show or organisation that intends to promote a series of competitions which qualify for a further competition or competitions at a subsequent show or shows must apply to the National Sport Committee for ratification by the Board before 31 October giving full details of the proposed conditions. The method by which it is to be decided which horses or ponies qualify is to be clearly stated. No offer of allocation of such a qualifying competition is to be made to another show until such time as the National Sport Committee/Board has approved the conditions. All allocations are to be reported to the National Sport Committee and must not subsequently be altered without its approval. See Rule 290.10.
- 6 When a preliminary competition is held at a show which qualifies for a further competition at the same show, separate cash prizes in accordance with Rule 76 must be offered for the preliminary competition, which should be scheduled in accordance with Rule 288 unless special permission has been given by the Chief Executive.
- 7 A show that schedules a Foxhunter First Round competition must also include in the same schedule an Open Competition of 1.20m or above (a split Foxhunter/1.20m class will suffice) or must provide sufficient competitions for all horse grades to have the opportunity of competing.

Foxhunter First Round Qualifier may be incorporated within a Grade C competition, but the show must schedule a 1.20m Open or above.
- 8 Shows may limit the number of entries in any competition. In the case of ITs and competitions that qualify for Second Rounds, Semi or National Finals the number of entries must not be limited to less than 40 without the special permission of the Chief Executive.
- 9 Special competitions must be scheduled in accordance with Rule 268.
- 10 When Second Round competitions included in Section 4 of the *Handbook* take place at a show at which competitors are normally required to become show members, non-members qualified for the Second Round must be allowed to enter that competition for the same entry fees as Members, without being required to pay any membership fee or surcharge. These competitors must also be allowed to enter their Second Round horses without membership fee or surcharge for one other competition for which they are eligible, provided such a competition has been scheduled on the same day.
- 11 Competitions with more than 70 starters when first prize money does not exceed £30 may be divided into two sections for the jump off and purposes of awarding prizes. The Judges will allocate eligible competitors to each jump-off by draw or, if the procedure under Rule 231.1 has been followed, then alternative

eligible competitors will be allocated to each jump-off. Other competitors eligible for prizes but not for the jump-offs will similarly be allocated to each section. Where applicable numbers to qualify from each section will be based on half the numbers to start in the first round rounded up to the nearest whole number. No horse/pony may compete in more than one section and there should be approximately the same number of entries in each section. Each section should have the same prize money as that which has been advertised in the schedule plus additional prizes in accordance with Rule 76.5. This Rule does not apply to Second Round qualifiers listed in Section 4 of the *Handbook*.

- 13 For competitions with fewer than four starters: only with the agreement from the competitor/s the show may run the competition without paying out any scheduled prize money. However, prize money as scheduled will be awarded on result sheets and be graded on the horse/pony's winning record together with double clears if applicable. If competitors are not in agreement the Show Organiser may cancel the competition in accordance with Rule 76.14.

All Pony shows will be included in one Category.

- 2 Prizes in kind may be offered in addition to any or all of the cash prizes.
- 3 The value of the first cash prize must not exceed one third of the total cash prize money and must not be less than **£15 (as of 1st April 2016)**. An acceptable balance of prize distribution must be presented in schedule; **third prize should be no less than half of the allocated first prize scheduled.**
- 4 The value of the lowest cash prize, except in a sweepstake, must not be less than the normal entry fee stated excluding VAT if applicable, in the schedule excluding any surcharge for late entries or reduction for membership. Block entry fees may be levied, but these may not be greater than the total of the last scheduled prizes of all the classes encompassed in the block entry fee, with the recommendation that it is a reduced entry fee.
- 5 Not less than one prize is to be awarded for every five starters or part thereof in any competition, including Hors Concours starters and those competing under the Ticket to Ride scheme. When fewer prizes have been offered in the schedule, additional prizes must be awarded to maintain this ratio (but see Rule 76.10).

6 Withholding Prizes

- 1 When there are 20 or less starters in a competition the number of prizes awarded may be reduced below the number offered in the schedule by withholding lower prizes provided the following minimum numbers of prizes are awarded, but with the exception that any competitor who is eliminated or retires from the first round of the competition is not eligible to receive prize money in that competition:

Up to five starters 1st prize

Up to 10 starters

Up to 15 starters

Up to 30 starters	1st, 2nd, 3rd, 4th, 5th & 6th prizes
Over 30 starters	All prizes

Shows must specifically state in their schedules when Rule 76.6.1 is to be implemented for sponsored competitions.

- 2 The intention to adopt this procedure must be agreed with the sponsor of the prize money, if any, and stated in the schedule for the competition in the following form: "In the event of insufficient starters lower prizes may be withheld in accordance with Rule 76.6".
- 3 Under no circumstances may the value of any prize awarded be reduced below the value offered in the schedule.
- 4 The Judge is not to withhold any prize unless he is satisfied that he/she is required to do so by the Show Organiser and that the sponsor, if any, has signified that it is his/her wish that the sponsored prize money should be withheld in accordance with this rule if there are less than 20 starters.
- 5 If the Judges' instruction to continue is not followed by competitors, no trophy will be awarded and the competitors will each only receive the prize money and the lowest placing for which they would have jumped off. There will be no qualifying place.
- 7 Minimum prizes for sweepstakes are to be offered on the following scale: 1st, 25%; 2nd, 20%; 3rd, 15%; 4th, 10%; 5th, 5% of the total entry fees received. If the number of starters exceeds 29, additional prizes must be awarded in accordance with Rule 76.5. Rule 76.6 may not be applied to a Sweepstake.
- 8 Prize money in excess of that offered in the schedule is not to be awarded without the approval of the Chief Executive.
- 9 Cash prizes that are awarded on the combined result of more than one separate competition may only be offered on the basis of the results obtained by individual horses. Cash prizes are accordingly not to be awarded to leading riders on the basis of results achieved with more than one horse. Prizes in kind may, however, be awarded on this basis. All shows wishing to award leading rider prizes must have the written approval of the Chief Executive prior to producing their schedule and the leading rider prize must be clearly stated in the schedule.
- 10 When prizes are divided as the result of equality of placings in any competition and such division results in less than £1 to be awarded to each of the competitors placed equal, such awards may be withheld at the discretion of the show organising committee, notwithstanding the provisions of Rule 76.5.
- 11 There is no limit on prize money for Open competitions except as detailed below:

Classes for 128cms ponies with maximum height in the first round of 95cms; the first prize may not exceed £50.

Classes for 138cms ponies with maximum height in the first round of 1.05m; the first prize may not exceed £50.

Classes for 148cms ponies with maximum height in the first round of 1.10m; the first prize may not exceed £50.

Any competition run over three rounds, commencing at 1.10m, must have a minimum first prize of £50.

The first prize in Open competitions for ponies at 1.10m or below may not exceed £50 in prize money or prizes in kind, except in Championships with qualifying competitions held at a series of shows when the first prize for the final must not exceed £250.

- 12** In competitions confined to ponies not exceeding 128cms the first prize must not exceed £75, except in championships with qualifying competitions held at a series of shows, when the first prize for the final must not exceed £250.
- 13** Challenge trophies should be signed for by the rider, owner or Authorised Agent of the winning horse or pony. The signatory will be held responsible for returning the trophy in the same condition as that in which he/she received it by the date stipulated by the show at which it was won. Failure to do so may be reported to the Chief Executive who may initiate disciplinary proceedings.

Trophies for National Finals require a mandatory £50 deposit to be paid by the rider, owner, parent or Authorised Agent.

- 14** Where there are fewer than four starters in a competition Show Organisers may cancel the competition(s), (or run for qualification only, no prize money will be paid out by the organiser, however prize money will still be recorded as per schedule and points will still be awarded according to placings and double clears). If there are four or more starters then the competition must be run.
- 15** A competitor who does not complete the first round of a competition is not eligible for an award or qualifying place.

77 Eligibility

1 It is the responsibility of the owners, riders and Authorised Agents jointly and severally that horses/ponies and riders that compete in British Showjumping affiliated competitions are eligible in all respects to do so and that Notice in Writing or verbally, in accordance with Rules 22 & 23, has been properly and fully effected before competing.

2 Riders who cannot fully satisfy the conditions laid down in Rule 77.1 must present an entry ticket, conforming to the 'Ticket to Ride' scheme as follows: Stallions are not eligible to compete on a ticket.
Note: The principles of normal Rules apply to this scheme i.e. pony members cannot compete in adult competitions and vice versa.

Blue Tickets: These cost £6 each, of which £3 is retained by the show and £3 forwarded to British Showjumping, over and above the normal entry fee, and may be purchased from Show Secretaries by Members and non-members and entitles them to ride in one class once for every ticket purchased – no prize money, qualification or placing may be won.

Promotional tickets: These may appear from time to time in equestrian publications and will entitle Members and non-members to ride in one class for every ticket surrendered and no prize money, qualification or placing may be won.

The only horses that may compete for prize money or qualifications are those for which a Member's current membership and registration card is presented to a Show Organiser – it is vital that these cards are not forgotten or left at home since a charge for a ticket will then be required before competition. Members will not now be able to compete with a horse whose registration paperwork has not been processed at Meriden and a registration card received by the Member before competing without using and paying for a Blue ticket (see Rules 22 & 23). Members are therefore encouraged to plan at least 10 days ahead when wanting to register a new horse and before competing.

3 A horse or rider may be allowed to take part in a competition 'Hors Concours' (non-competitively) subject to the following conditions:

- 1 Permission is obtained from the Show Organising Committee. Such permission is entirely at the discretion of the Show Organising Committee who may withhold permission without being obliged to give reasons.
- 2 The Judge is informed that permission has been given.
- 3 The rider is subject to the Rules as if he/she were a competitor in the competition in question, except as provided for in this Rule, (for example, he/she must follow the set track and will be required to leave the arena if eliminated).
- 4 The owner and rider are paid up Members of British Showjumping in the appropriate categories of membership and the horse or pony is currently registered, though not necessarily in the grade appropriate to the competition or have presented an entry ticket under the 'Ticket to Ride' scheme. Horses may not, however, compete 'Hors Concours' in pony competitions and vice versa.
- 5 A horse/pony taking part in a competition 'Hors Concours' may do so once in the first round only and is not to participate in any jump-off other than the jump-off section of a competition under Table A6/Two Phase/Single Phase.
- 6 A horse or pony that has competed in affiliated competitions 'Hors Concours' or on a 'Ticket to Ride' is not allowed to compete subsequently for prizes in the same arena on the same day.

- 7 A horse or pony may not compete 'Hors Concours' or on a 'Ticket to Ride' in Second Round competitions, Regional or Semi Finals or Direct Qualifiers for HOYS, RHIS & BSNC.
- 8 No longer applicable.
- 9 A rider, having had faults during his/her round, may jump 'Hors Concours' immediately or before the end of the class.
- 4 When the schedule specifies that a competition is open to horses or ponies of a particular grade or grades, horses or ponies will be permitted to jump in the larger section of a handicap competition without penalty. I.e. A Grade C horse competing in the B/A section of an A B C Handicap. If no grade is specified, the competition is open to horses or ponies in all horse or pony grades.
- 5 Competitions are normally to be scheduled as open to horses or ponies and stallions are not to be excluded from such competitions. Special competitions may, however, be scheduled for mares only.
- 6 No rider may ride more than four horses or three ponies in the same competition (except in combined classes) in addition to 'Hors Concours' or 'Ticket' entries. This Rule applies equally to Second Round and Final competitions for which horses and/or riders have qualified from a previous competition except that 'Hors Concours' or 'Ticket' entries are not allowed (Rule 77.3.7).
- 7 Where the conditions of any competition refer to a horse's or pony's winnings, this is to be interpreted as only those winnings taken into consideration for grading purposes as stated in Rule 62 and Rule 67.1.
- 8 Unless otherwise stated in the schedule, eligibility will depend on grade and/or total winnings as at the time of starting.
- 9 Adult competitions are open to horses only to be ridden by Life, Full, Associate or Junior Members.
- 10 Pony competitions are open to ponies only to be ridden by Junior Members.
- 11 Young Rider competitions are open to horses to be ridden by Life, Full, Associate or Junior Members up to the end of the calendar year in which the rider reaches the age of 21 and are judged under the Rules for adult competitions appropriate to the grade or grades of horses to which the competition is confined in accordance with the schedule.
- 12 138cms competitions are open to ponies not exceeding 138cms to be ridden by Junior Members up to the end of the calendar year in which the rider reaches the age of 14.
Riders 8 years and under can only compete on ponies 138cms and below.
- 13 128cms competitions are open to ponies not exceeding 128cms to be ridden by Junior Members up to the end of the calendar year in which the rider reaches the age of 12.

British Showjumping Code Of Conduct For The Welfare Of The Horse (Annex A)

British Showjumping expects all those involved in showjumping to adhere to the following Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

- 1 At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands.
 - (a) **Good horse management**
Stabling, feeding and training must be compatible with good horse management and must not compromise welfare. Any practices that could cause physical or mental suffering, in or out of competition, will not be tolerated.
 - (b) **Training methods**
Horses must only undergo training that matches their physical capabilities and level of maturity for their respective disciplines. They must not be subjected to any training methods which are abusive or cause fear or for which they have not been properly prepared.
 - (c) **Farriery and tack**
Foot care and showing must be of a high standard. Tack must be designed and fitted to avoid the risk of pain or injury.
 - (d) **Transport**
During transportation, horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent staff. Competent handlers must always be available to manage the horses.
 - (e) **Transit**
All journeys must be planned carefully and horses allowed regular rest periods with access to food and water.
- 2 Horses and competitors must be fit, competent and in good health before they are allowed to compete.
 - (a) **Fitness and competence**
Participation in competition must be restricted to fit horses and competitors of proven competence.
 - (b) **Health Status**
No horse showing symptoms of disease, lameness or other significant ailments or pre-existing clinical conditions should compete or continue to compete when to do so would compromise its welfare. Veterinary advice must be sought whenever there is any doubt.
 - (c) **Medication**
Abuse of medication is a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be allowed for full recovery before competition.
 - (d) **Surgical procedures**
Any surgical procedures that threaten a competing horse's welfare or the safety of other horses and/or competitors must not be allowed.
 - (e) **Pregnant/recently foaled mares**
Mares must not compete after their fourth month of pregnancy or with foal at foot.
 - (f) **Misuse of aids**
Abuse of a horse using natural riding aids or artificial aids (e.g. whips, spurs etc.) will not be tolerated.

3 Events must not prejudice horse welfare**(a) Competition areas**

Horses must only be trained and compete on suitable and safe surfaces. All obstacles must be designed with the safety of the horse in mind.

(b) Ground surfaces

All ground surfaces on which horses walk, train or compete must be designed and maintained to reduce factors that could lead to injuries. Particular attention must be paid to the preparation, composition and upkeep of surfaces.

(c) Extreme weather

Competitions must not take place in extreme weather conditions if the welfare or safety of the horse may be compromised. Provision must be made for cooling horses quickly after competing in hot or humid conditions.

(d) Stabling at events

Stables must be safe, hygienic, comfortable, well ventilated and of sufficient size for the type and disposition of the horse. Clean, good quality and appropriate feed and bedding, fresh drinking water, and washing-down water must always be available.

(e) Fitness to travel

After competition a horse must be fit to travel.

4 Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over.**(a) Veterinary treatment**

Veterinary expertise must always be on site or on call at an event. If a horse is injured or exhausted during a competition, the competitor must dismount and a veterinarian must check the horse.

(b) Referral centres

Wherever necessary, the horse should be collected by ambulance and transported to the nearest relevant treatment centre for further assessment and therapy. Injured horses must be given full supportive treatment before transport.

(c) Competition injuries

The incidence of injuries sustained in competition should be monitored. Ground surface conditions, frequency of competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries.

(d) Euthanasia

If injuries are sufficiently severe the horse may need to be euthanized by a veterinarian as soon as possible on humane grounds and with the sole aim of minimising suffering.

(e) Retirement

Every effort should be made to ensure that horses are treated sympathetically and humanely when they retire from competition.

(f) British Showjumping urges all those involved in equestrian sport to attain the highest possible levels of education in their areas of expertise relevant to the care and management of the competition horse.

This Code of Conduct for the Welfare of the Horse may be modified from time to time and the views of all are welcomed. Particular attention will be paid to new research findings and British Showjumping encourages further funding and support for welfare studies.

Sloping poles are permitted on vertical obstacles and sloping poles may be placed on the front element of spread obstacles, provided the top end is not placed higher than the horizontal pole. Unsupported ends of sloping poles must rest at or in front of the ground line (Rule 133.1). False ground lines are not allowed. Alternate sloping top poles (i.e. Swedish Oxer, St. Andrews Cross etc.) are not to be used.
- 3 Practice spread obstacles are not to be jumped in such a direction that the front element is higher than the rear element.
- 4 No pole or obstacle of any kind is to be held by hand for a horse to jump.

- 5** Practice obstacles are to be jumped in one direction only. The direction in which the obstacle is to be jumped must be indicated with red and white flags or by red and white supports. The red flag or support must always be passed on the rider's right hand side and the white flag or support on his/her left. Jumping the practice fence in the wrong direction incurs elimination from the competition.
- 6** Practice fences may not be higher than 10cms than the height of the first round fences in the arena.
- 7** Safety cups are mandatory on the middle or back element of practice fences.
- 8** The back bar of a parallel/oxer must not be dropped to the floor to jump. If the parallel/oxer is to be used as an upright the back pole must be removed completely or used accordingly under Rule 122.

OBSTACLES

131 Structure and Appearance

- 1 Obstacles should be inviting and varied in their overall shape and appearance. Obstacles, unless permanent, must be such that they can be knocked down, while not being so light that they fall at the slightest touch nor so heavy that they may cause a horse to fall. For all affiliated competitions, the top pole to be wooden not plastic and all plastic poles used underneath the top element (pole) must be weighted. The minimum face width of a show jump is two metres.
- 1 Planks must not be used in the following positions:
 - 1 The rear element of a triple bar.
 - 2 The rear element of an ascending or true oxer.
 - 3 The top of the centre element of a triple bar.
- 2 Gates must not be used in the following positions:
 - 1 The rear element of a triple bar.
 - 2 The rear element of an ascending or true oxer.
 - 3 The centre element of a triple bar.
- 3 A Triple bar may be included in classes in an appropriate location. A triple bar may not be included as the second or third part of a combination.

132 Cups

Poles and other elements must be supported in cups. The depth of the cup must not exceed one half of the diameter of the element it supports and its radius must be greater than the radius of the element. Shallow or flat cups must be used for planks and gates. Shallow cups must also be used in pony competitions for any obstacle the face of which exceeds 3.65m. All cups must have rounded edges. A cup fitting other than a safety cup must be fixed to its support in a manner that it cannot slide down if knocked. Safety cups approved by the FEI must be used on the back and centre of spread fences in the jumping arena. Safety cups on the middle or back element of practice fences are mandatory in the warm up arena. When poles are used over a water tray and the tray extends out in front of the face of the poles then safety cups must be used on all hanging elements. If the tray is set back so the front edge aligns with the poles, then safety cups are not required on the front elements.

133 Dimensions

- 1 Definitions
 - 1 Ground Line: The horizontal line at ground level at or vertically below the front edge of the first element of the obstacle.
 - 2 Centre Line: The horizontal line at ground level at right angles to the centre of the ground line.
 - 3 Face: The horizontal measurement parallel to the ground line between the inner edges of the wings, supports or flags.
 - 4 Spread: The horizontal measurement at right angles to the ground line between the front edge of the first element and the rear edge of the last element.
 - 5 Height: The vertical measurement between the centre line and the highest point of the obstacle above it (e.g. the height of an obstacle that comprises two crossed poles is taken at the cross).

2 Units

Metric units are used throughout these rules. The limits on the height and spread of obstacles laid down in the rules must be observed with the greatest care. However, if it should happen that a maximum dimension has been marginally exceeded as a result of the material used for construction and/or by the position of the obstacle on the ground, the maximum dimensions laid down will not be considered as having been exceeded, but the permitted tolerance is 5cms maximum in the ring or the practice area.

134 Maximum Heights in the First Round

- 1** In Sections 3 and 4, 80% of every course must be built to the upper height limit.
- 2** The obstacles in preliminary competitions that qualify for a final competition at the same show may be built to heights determined by the prize money for the final.
- 3** In Top Score or Accumulator competitions the height of the Joker may exceed the appropriate height in the table by 15cms (but see Rule 135.4).
- 4** Obstacles should be set at heights lower than maximum if the state of the ground warrants it.

135 Heights in Jump-Off

- 1** In principle, jump-off courses for all classes up to and including 1.30m to be increased by 10cms from the upper height limits set in first rounds, unless exceptional circumstances require otherwise. Courses above 1.30m to be increased by a minimum of 5cms. For age classes see Rules of Competition.
- 2** The heights of the obstacles must remain unchanged from those in the previous round or jump-off if the horses or ponies to jump-off have all incurred faults in that round or jump-off.
- 3** The height of any obstacle in a jump-off must not exceed the height of the highest obstacle in the previous round or jump-off by more than 10cms. The height of each individual obstacle should not be increased by more than this amount in each jump-off, except when obstacle numbers 1 and/or 2 in the first round are to be jumped in later sequence in the jump-off.
- 4** The maximum height for any obstacle in any competition for ponies is 1.50m and must not be exceeded at any time. This includes the height of the Joker in Top Score or Accumulator competitions (Rule 273).

Not exceeding 138cms	3.35m	1.30m	1.15m
Not exceeding 128cms	3.00m	1.20m	1.05m

136 Maximum Spreads

- 1 The spread of triple bar obstacles must not exceed 2.20m. No other obstacles may exceed 2.00m in spread, except the water jump.

137 Combinations

- 1 A combination is a series of obstacles to be taken in succession separated by intervening distances not exceeding 12m measured at ground level from the rear of one obstacle to the ground line of the next. A double combination comprises two such obstacles. A treble combination comprises three such obstacles.
- 2 A combination, the sides of which are enclosed between obstacles or which is a permanent feature of the arena such as a "table" or a "devils dyke" is known as a closed combination and must be designated as such on the course plan. Any combination that is not so designated is an open combination. In permanent feature closed combinations, the distance between successive obstacles may exceed 12m, provided the obstacles are contained within the boundary of the permanent feature.
- 3 Except in Grades A, B and A & B competitions judged under Table C, in open combinations the distance between obstacles must permit at least one non-jumping stride.
- 4 Spread obstacles are not permitted as the second or third part of a double or treble combination in classes held exclusively for 128cm ponies and also 128cm/138cm pony handicaps.

139 Water Jump

- 1 The four corners of the water jump must be marked with flags not less than 1.50m in height above ground level.
- 2 The face of the water jump must always be greater than the spread.
- 3 A take-off element such as a brush or small wall not exceeding 70cms must be used to form the ground line of the water jump or the ground line may be defined by a board not less than 125mm (at the edge of the water). The ground line must not be shorter than the face. If a board is used it must be secured to

prevent it from moving.

- 4 A white lath, tape or plasticine strip between 5cms and 7cms wide and no shorter than the face must be laid on the landing side touching the edge of the water but not in it.
- 5 The spread of the water jump from the ground line to the far edge of the lath, tape or strip on the landing side must not exceed the face. In Grade C competitions the spread must not exceed 3.65m. In pony competitions the spread must not exceed the distances in Table 136.
- 6 A water jump or ditch made of concrete must be lined with matting and/or other suitable material extending the full face dimension and at least 1m from the edge of the water on the landing side, to minimise the risk of injury.
- 7 No substitute such as sand or sawdust may be used for water.
- 8 One or two poles in the same vertical plane may be placed between the take off element and the landing marker. With no pole or one pole it must be judged as a water jump. With two poles it may be judged as a water jump or judged as a **jump over water** (normal spread obstacle). The course plan must be marked accordingly. If there are more than two elements, either in the same or in a separate vertical plane the obstacle is judged as a **jump over water** (normal spread obstacle) and not as a water jump (Rule 254.6). One element such as a small wall may be placed behind the take off element. There may not be more than 30cms (1') between the back of the take off element and the next element when this is not a pole.
- 9 When the conditions of the competition stipulate a water jump must be included, no additional element is allowed between the take off element and the lath, tape or strip, except for Area Trials, International Trials and when special competitions specify otherwise.
- 10 Where permitted water may be used under a spread fence in a course as a jump over water. When this is the case the take off element and top pole in the middle is deemed faultable. The water and optional lath if included are not faultable. To distinguish between a water jump and a jump over water and the way in which the obstacle is to be judged, the Course Designer must mark the course plan accordingly next to the drawn obstacle.

140 Hedge

- 1 A hedge may be used as a spread obstacle, but it must have at least two poles on the take off and one on the landing side which are clearly visible so that the height and spread of the obstacle cannot be mistaken. Bullfinches are not allowed.
- 2 Hedges not exceeding 1m in spread with one or more single poles directly over them may be used as vertical obstacles.

142 Flagging, Course

It is not mandatory, other than for water jumps and practice obstacles, to flag fences. When fences are flagged they are to be jumped in one direction only with red and white flags used as defined in Rules 122.5 and 139. Elements faultable are those that lie within the flags.

143 Directional Flags

Compulsory turning points must be flagged with red and/or white flags and marked on the course plan, as defined in Rules 122.5 and 139. Failure to pass

on the correct side of a directional flag incurs elimination.

COURSES

151 Course Plan

- 1** A plan of the course, including details of the jump-off course or courses and the distance and time allowed, must be displayed in the collecting ring at least 30 minutes before the start of the competition. An identical plan is to be provided for the Judge.
- 2** A dotted line on the course plan indicates an optional track that may be followed without penalty. A full line indicates a mandatory track which must be followed.

152 Start and Finish

- 1** The start and finish line must be a minimum of six metres and maximum of 25 metres from the first and last fence.
- 2** The start and finish lines must each be defined by two flags or markers.

153 Number of Obstacles

- 1** The course for the first round of a competition under Table A or Table C must comprise at least seven obstacles clearly numbered in the sequence in which they are to be jumped. In this context, a combination is to be numbered as one obstacle and each obstacle comprising the combination must be lettered A, B, C, etc. on the course plan.
- 2** Alternative obstacles are allowed and must be marked with the same number and indicated on the course plan (Rule 257).

154 Jump-Off Course

- 1** The course for a jump-off must comprise at least six obstacles (five indoors), except in Table A6 competitions (see Rule 192A). The obstacles retain the same numbers as for the first round, but only the obstacles designated for the jump-off on the course plan are to be jumped and they are to be jumped in the order so designated, which need not be the same order as in the preceding round.
- 2** If one or more combinations were included in the first round, at least one combination must be included in the jump-off. The distances between obstacles forming part of a combination must not be altered, but an obstacle forming part of a combination may be removed.
- 3** The shape, type and colour of the obstacles in a jump-off must not be altered and no new obstacles may be introduced, except as provided for in Rules 154.5 and 192A.7.
- 4** Obstacles not included in the course should be blanked off, but failure to blank off an obstacle will not preclude the elimination of a competitor for jumping an obstacle not forming part of the course (Rule 256.2).
- 5** At least one extra obstacle, which was not included in the first round, may be included in the jump-off (Rule 154.1 applies). This obstacle must not be unusual in character and must conform to the height and spread restrictions applicable to other obstacles included in the jump-off. It must be separately numbered and erected before the start of the competition and should be blanked off during the first round (Rule 154.4 applies). Competitors will not be permitted to walk

the course a second time before the jump-off.

155 Measuring the Course

- 1** The course is to be measured by following the track that would be taken by a careful rider who would not wish to take chances by cutting corners. The jump-off course and/or courses are to be separately measured in the same manner.
- 2** If the Judge considers that the course has been incorrectly measured and/or that the time allowed is in error, having due regard to the speed laid down for the competition, he/she may, in his/her absolute discretion, after consultation with the Course Designer, amend the time allowed; providing not more than five horses have completed the course without a refusal and without departing unduly from the track. If this procedure is invoked during the first round of a competition, the time allowed for the jump-off must be carefully checked and if there is any possibility that it may be in error, the jump-off course must be remeasured before the start of the jump-off (Rule 162.3).
- 3** No competitor or other person has the right to demand the remeasurement of the course or alteration of the time allowed.

156 Walking the Course

- 1** It is the responsibility of the Judge to walk the course before the start of the competition and to inspect the obstacles. Should he/she consider any alteration to be necessary, he/she will instruct the Course Builder accordingly.
- 2** Competitors are to be allowed to walk the course dismounted before the start of the competition. Once the competition has started, competitors who enter the ring dismounted may be eliminated at the discretion of the Judge (Rule 222). Competitors may be allowed to walk the course before the start of a second or subsequent round or jump-off only if the track has been substantially altered by the resiting of obstacles. For the first class of every show day no further entries to be accepted after the published start of the class and competitors may not walk the course after the published start of the class.

157 Representations by Competitors about the Course

- 1** If, when walking the course, a competitor considers that any aspect of the course is contrary to the Rules for the competition, he/she should represent his/her concern to the Judge, who should then consult the Course Builder and decide whether or not any alteration to the course should be made. If any such alteration is made, it must be drawn to the attention of all competitors, and, if necessary, the course plan must also be altered.
- 2** A competitor who alters any obstacle on the course may be disqualified at the Judge's discretion.

158 Course Incorrectly Erected

Once the signal to start has been given, if the competitor jumps the course as set his/her score for that round is valid notwithstanding that one or more obstacles may subsequently be found to have been incorrectly erected, but see also Rule 243.

159 Resiting Obstacles

Obstacles may be resited (before the finish of the round) during the course of a competition, if in the opinion of the Judge a deterioration in the state of the going or other special circumstances necessitate such action. Obstacles that cannot be resited, such as water jumps, ditches or permanent obstacles must be taken out of the course. The scores of all previous competitors penalised during

the same round at such obstacles must be adjusted by cancelling faults, time faults and time penalties incurred thereat. All eliminations will, however, stand.

161 Timing

Please see table on following page.

The speed for all jumps off should be the same as the speed in the first round.

162 Time Allowed

- 1 The time allowed in competitions judged under Table A is calculated by the Judge by dividing the length of the course as measured (Rule 155.1) by the speed required as laid down in the competition conditions. The time allowed is expressed as whole seconds, fractions of a second being rounded up to the nearest whole second above.
- 2 The time allowed for the first round and for each jump-off must be stated on the course plan.

3 The time allowed may only be altered in accordance with Rule 155.2.

4 Times allowed for various speeds and lengths of course are shown in Table 162.
NOTE: If the outdoor arena is 75mx45m (or equivalent square area) or less the class to be run at 25mpm less than the normal speed but nothing less than 325 mpm. If the indoor arena is 60mx24m (or equivalent square area) or less the class to be run at 25mpm less than the normal speed but nothing less than 325mpm.

163 Time Limit

The time limit is twice the time allowed for competitions judged under Table A and two minutes for competitions judged under Table C. Failure to complete the course within the time limit incurs elimination.

164 Competitor's Time

- 1** The clock is started immediately the competitor crosses the starting line, unless the countdown rule is applied, in the correct direction and is stopped immediately the competitor crosses the finishing line having jumped all the obstacles.
- 2** The clock may also be stopped and restarted under certain circumstances during the course of a round (Rules 245, 251.4, 253.2, 253.3, 254.3 & 265.3). The period during which the clock remains stopped under such circumstances is known as 'interrupted time'. Interrupted time is not allowed or extended solely for the purposes of authorised assistance (Rules 261.2).
- 3** The competitor's time for a round is the elapsed time from starting to finishing minus interrupted time (if any) plus time penalties (if any).
- 4** The Time Judge is responsible only for recording the elapsed time and interrupted time. The award and addition of time penalties (Rule 182.3) and the calculation and award of time faults (Rule 182.2) are the responsibility of the Judge. Time penalties are not to be included in the time displayed on the timing equipment or on the public timing display.

164.1a 45 Second Countdown

The use of the 45 second countdown is required (not mandatory for Club competitions).

After the bell has been rung, the competitor must cross the starting line in the correct direction within 45 seconds; the automatic timing equipment must show a count down from 45 seconds on the scoreboard or other display beside the arena, clearly visible for the competitor. If the competitor has not crossed the starting line in the correct direction when the 45 seconds expire, the time of the round will start at that moment. The competitor is NOT eliminated if he/she does not cross the starting line within the 45 seconds. Once the bell has been sounded for the competitor to start his/her round, the Ground Jury has the right to interrupt the 45 seconds countdown, as a result of unforeseen circumstances.

165 Timing Equipment

- 1** Automatic timing must be used in all competitions in which time is a deciding factor and/or in which faults are awarded for exceeding the time allowed. Systems capable of recording 1/100th of a second may be used if available. If a public display system capable of recording only 1/10th of a second is in use, competitors' times must be recorded to the same standard.
- 2** In a timed jump-off and in all competitions in which time is the deciding factor

the designated person must operate a stopwatch in addition to the automatic timing. In competitions in which the first prize is £1,000 or more or in the event of failure of the automatic timing, and in the absence of a Field Timing

Judge, the designated person must be placed with a flag, at the starting and the finishing line, to signal the crossing of a competitor. The time taken by the competitor to complete the round is to be registered at the Judges' box. A designated person must operate a stopwatch other than the designated person controlling the automatic timing.

- 3 In the event of failure of automatic timing capable of recording 1/100th of a second, all times already taken during a round by such equipment must be rounded down to the nearest 1/10th of a second below, so that they can be fairly compared with the times taken by stopwatch.

Communications

171 The Bell

For the purposes of these Rules 'the bell' shall mean any bell, whistle, horn, hooter or other distinctive sound signal used to communicate with the competitors and "ringing the bell" shall mean the sounding of any such signal.

172 Ringing the Bell

The bell is rung:

- 1 To instruct competitors walking the course to leave the arena.
- 2 To give the signal to start.
- 3 To stop a competitor during the course of his/her round.
- 4 To give the signal to a competitor to continue his/her round.
- 5 To eliminate a competitor.
- 6 To disqualify a competitor.
- 7 To retire a competitor.

173 Public Address

The public address system is not to be used to caution or admonish competitors. If such action is necessary, the competitor should be requested to report to the Judges' box.

174 Collecting Ring

It is essential to the smooth running of any show that voice communication is established and maintained between the Judges' box and the collecting ring. (See also Rule 121.2).

Scoring

181 Competition Categories

Showjumping competitions are judged and scored in a number of different ways, which fall into the following categories:

- 1 Competitions under Table A.
- 2 Competitions under Table C.
- 3 Special competitions.

182 Table A**1** Faults

Jumping faults are incurred for errors made during a round as indicated in the Rules listed:

Rule	Faults
1 Knock down 211	Four
2 Disobedience 212	Four or elimination
3 Fall 213	elimination
4 Water jump 254	Four

2 Time Faults

In all rounds under Table A, ponies and horses, one time fault is incurred for each commenced second in excess of the time allowed (see Rule 162).

3 Time Penalties

Time penalties are incurred when an obstacle is displaced as the result of a disobedience on the following scale:

1 At a single obstacle, at the first obstacle of an open or closed combination or at subsequent obstacles of a closed combination	Six seconds
2 At the second obstacle of an open combination	Six seconds
3 At the third or subsequent obstacles of an open combination	Six seconds

Time penalties are added to the time taken to complete the round before the calculation of any time faults (Rule 182.2).

183 Table C**1** Faults and time faults are not incurred under Table C.**2** Time penalties of four seconds are incurred for each knock down and for landing in the water or on the tape of the water jump. First disobediences during the round are not penalised, but the second disobedience during each round anywhere on the course incurs elimination.**184 Special Competitions**

The Rules for scoring and the methods for determining the results of special competitions are laid down in the rules for each such competition and must be printed in full in the schedule if not included in the Rule Book.

RESULTS**191 Results under Table A****1** In competitions judged under Table A competitors are placed according to the following priorities:

- 1 By total faults, which are calculated by adding together for each competitor his/her faults and his/her time faults for the round. The competitor with the lowest total faults is placed highest.
- 2 By total faults and time. In the first round against the clock or in a jump-off against the clock, competitors with equality of faults are placed according to their times (Rule 164.3).

- 3 In the event of equality of faults for first place in a round or jump-off not against the clock only those sharing first place qualify for the next jump-off, if any, as indicated in Table 191.
- 4 Competitors are placed in each round or jump-off according to their total faults in that round or jump-off and faults are not carried forward to the next jump off.
- 5 In the event of equality of faults for second or inferior placings in a round or jump-off not against the clock those placed equal will divide the prize money.
- 6 In the event of equality of faults and time in a round or jump-off against the clock, those placed equal will divide the prize money.
- 7 In a competition in which a set number will qualify for a subsequent competition, in the event of equality of both faults and time for the lowest qualifying position, those with equality for this position will all qualify.

TABLE 191

Table	First Round	First Jump-off	Second Jump-off
AI	Not against the clock. Those placed first equal qualify for the jump-off.	Not against the clock. Those placed first equal qualify for the second jump-off.	Not against the clock. Those placed first equal divide the prize money.
A4	Against the clock. Competitors placed on faults and time.		
A6	Not against the clock. Those jumping clear in the first round go immediately to the jump-off section of the course.	Not against the clock. Those placed equal divide the prize money in accordance with Rule 192A.5 and 6.	
A7	Those placed first equal qualify for the jump-off.	Against the clock. Competitors placed on faults and time.	
A8	Those placed first equal qualify for the first jump-off. Other competitors placed according to their penalties.	Those placed first equal qualify for the second jump off. Other competitors placed according to their penalties and time.	
A9	The best five scores or, if necessary, all clear rounds qualify for the second round. In the event of equality, faults and time will decide, i.e. the fastest four faulters will qualify. All scores in the first round will be carried forward to the second round. Other competitors placed according to their penalties and time.	Against the clock. Competitors will start in reverse order or merit or the slowest four faulters will go first, the fastest clear last.	
AI0	Those placed first equal qualify for the jump off.	Against the clock. Competitors placed on faults and time.	

192A Table A6

- 1 In competitions judged under Table A6 the course is divided into two sections. The first section is judged under Table A, not against the clock, but with a time allowed.
- 2 If a competitor incurs any jumping or time faults over the first section a bell will be sounded to indicate that they must leave the arena immediately on completion of the first section.
- 3 Competitors with a clear round over the first section must go on immediately to the second or jump off section of the course. The competitor then jumps the jump off section which is judged under Table A not against the clock.
- 4 No penalties are incurred for disobediences between the finish of the first section and the start of the jump-off section.
- 5 In the event of equality of faults over the jump-off section of the course the prize money will be divided.
- 6 In the event of the number of competitors who reach the jump-off section of the course being insufficient to fill the prize list, the additional places will be decided on faults over the first section prizes being divided as necessary.
- 7 The course for the jump off will be four or five obstacles of which at least three or four of the obstacles are to be additional and not included in the first round. The double or treble included in the jump off must have formed part of the first round. The first round may not include more than nine numbered obstacles.

192B Table A7

In the event of equality of penalties for first place, there will be one jump-off against the clock. Other competitors are placed according to their penalties and time in the first round.

192C Table A8

For competitions over one round and two jump offs, the time to be taken into consideration in each round in order to determine placings and qualifying positions in the event of equality of faults. All those placed equal first go forward to the first jump-off. All those then placed equal first qualify for the second jump-off. **Double clear points will only be awarded to those competitors that jump a double clear across all three rounds.**

192D Table A9 Two Round Competition

The best five scores, or all clear rounds, will go forward to the second round, which will be against the clock. In the event of equality, faults and time will decide i.e. the faster four faulters will qualify. All scores in the first round will be carried forward to the second round. Competitors in the second round will start in the reverse order of merit or the slowest four faulters will go first, the faster clear last. If necessary, those who do not reach the second round, faults and time in the first round will determine their placings.

If a competitor withdraws from the second round he/she will not be replaced and he/she will receive the placing from the first round, however he/she will be placed after those who compete in the second round. At least five prizes have to be awarded.

192E Table A10

In the first round the second half of the course to be built 5-10cms higher than the first half (except only 5cms for all National Amateur classes, Senior classes 1.10m and below and Pony classes 1.00m and below). In the event of equality of penalties for first place, there will be one jump-off against the clock, other competitors are placed according to their penalties and time in the first round, and the jump-off course will be 5-10cms higher (except only 5cms for all National Amateur classes, Senior classes 1.10m and below and Pony classes 1.00m and below) than the second half of the first round.

193 Table C

- 1 The time penalties incurred are added to the time taken for the first and only round and competitors are placed in accordance with their resulting total time.
- 2 In the event of equality of total time for any placing, those placed equal will divide the prize money.

194 Table AC

Competitions confined to horses in Grades A and/or B may be judged under Table AC. The first round of such a competition is judged under Table A, not against the clock. In the event of equality of faults for first place, competitors placed equal will jump-off under Table C.

195 Competitor Riding all Horses Qualified for the Jump-Off

A competitor will not be required to jump-off against himself/herself when he/she is riding all the horses qualified for the jump-off. In these circumstances the competitor may nominate the order in which the horses are finally placed. In the absence of such nomination the horses will be placed equal first. However, should a double clear qualification be required then they must jump off.

195A Double Clear Qualification

To obtain a double clear qualification, even if the horse/pony is the only clear round, it must jump a jump-off round and jump clear to gain a double clear round.

196 Competition Abandoned

If the Judge decides that the competition must be abandoned as the result of special circumstances, such as weather, going, fading light, etc., the result of the class will be declared from all those competitors who have competed in the class at the point the class is abandoned. This will be done in accordance with the Rules of the competition being jumped and rule 76.6 (if applicable). All those competitors declared to start in the current round and who have not jumped at the point the Class is abandoned will have their entry fee for the Class refunded. (Any qualification will be referred to the British Showjumping Chief Executive).

197 No competitor completing the Course

If no competitor completes the course for the first round, or for the first section under Table A6 or Two Phase the Judge will declare the competition null and void.

198 Objections

- 1 An objection to the result of any showjumping competition may be made only by the owner, his/her Authorised Agent or the rider of a horse competing in that competition or by an Official of the show or of British Showjumping.

- 2 An objection that is based on the eligibility of a horse or rider to compete must be made in writing to the Chief Executive. The Chief Executive will inform the owner or Authorised Agent responsible for the horse against which the objection has been lodged of the details of the objection and will take into consideration any written representation received from such owner or Authorised Agent. Should he/she decide the objection is sustained the Chief Executive will disqualify the horse and take action in accordance with Rule 63. All concerned will be informed in writing of the Chief Executive's decision.
- 3 An objection that is based on the judging of the competition must be made in writing and lodged with the Show Organiser or such other Show Official as the schedule may direct within 30 minutes of the competitors leaving the arena following the presentation of awards. The objection must be accompanied by a cash deposit of £100 or such sum as the schedule may direct.
- 4 The decision of the Judges as to what actually happened during the competition cannot be overruled. However, the Judges may, in the light of evidence presented to them, reconsider their decision, but the final decision in such cases rests with the Judges alone.
- 5 Upon receipt of a written objection and deposit lodged, the Chairman of Judges should adjudicate whenever possible. If this is not possible, the objection should immediately be referred to the British Showjumping Office for consideration by the Chief Executive.
The deposit is forfeited unless the objection is upheld or it is decided that there were good and reasonable grounds for the lodging of an objection. Should an objection be upheld in relation to the result of a class, the deposit will be refunded and the results will be amended accordingly.
Unless the objection is upheld, there is no appeal from such a decision.
- 6 The objection panel must allow the objector to put his case to them verbally and/or in writing and to call and examine witnesses in support of his objection. The owner, rider and/or Authorised Agent responsible for the horse objected to and the Judges must be heard in like manner.
- 7 The objection panel may overrule the Judges and uphold the objection if they decide that the Judges' decision is contrary to the rules for the competition as laid down in the *British Showjumping Rule Book* and/or the schedule.
- 8 The decision of the Judges as to what actually happened during the competition cannot be overruled. The objection panel may invite the Judges in the light of evidence presented to them to reconsider their decision, but the final decision in such cases rests with the Judges alone.
- 9 If the objection is overruled, the objector's deposit is forfeited to the show. If the objection is upheld the deposit must be returned to the objector.
- 10 The decision of the objection panel must be conveyed on conclusion of the hearing to all concerned, including the Show Organiser, the Judges, the objector, the owner, rider, and/or Authorised Agent responsible for the horse objected to and all witnesses who have given evidence.
- 11 Objections decided under Rules 198.2 or 198.7 may be reviewed by the British Showjumping National Sport Committee, which may overrule the decision of the Chief Executive or the objection panel if in the opinion of the Committee,

the decision is contrary to the Rules for the competition.

12 Height Objections

- 1 When an objection is made against the height of an animal that has a measurement certificate issued by the Joint Measurement Board Ltd. the Rules of the scheme require the following procedure to be carried out by the objector:
- 2 When an objection is made under Rule 42.1(i), against an animal the objector must inform The Joint Measurement Board Limited, P.O. Box 322, Horley, Surrey, RH6 0WS of the objection by first class letter within 21 days of the Class. Details of the animal's name, the class and show involved and the name and address of its owner must be included together with the fee (JMB Rule 26.4 refers). The identity of the objector will not be disclosed.
- 3 When an objection is made against the height of an animal which does not have a measurement certificate issued by the Joint Measurement Board Ltd. the procedure laid down by the Show Organising Committee for objections is to be followed.

- 13 Representations to the Judge may only be made by Members of British Showjumping. A Member who wishes to make a representation must not interrupt or distract the attention of the Judge and must wait until the Judge signifies that he/she is ready to hear the representation.

- 14 The cost of any FEI re-measurement to be borne by the owners of the animals.

Elimination, Disqualification, Retiring & Withdrawing

201 Elimination

- 1 Elimination is the penalty for infringing certain Rules, as summarised in Table 201.
- 2 Unless otherwise stated in the conditions for the competition, all competitors eliminated are placed equal in the round or jump-off in which the elimination occurred immediately below the competitors who completed the round or jump-off, but above those who retired (see Rule 76.15).
- 3 A competitor who is eliminated must leave the arena and take no further part in the competition, unless the conditions for the competition state otherwise.
- 4 Before leaving the arena after being eliminated as the result of a refusal or run-out the competitor may make up to two attempts to jump any single obstacle in the arena in the direction indicated on the course plan.
- 5 Where a horse/pony is considered to be out of control and a danger to themselves, other competitors and members of the public anywhere on the show site, the Judge or British Showjumping [Stipendiary](#)/Steward or Development Officer has the discretion to eliminate from the class/show.

202 Disqualification

- 1 The Judge at his/her discretion may disqualify a competitor from a competition for:
 - (a) Failing to parade mounted and properly dressed for the presentation of awards (Rule 101.7).
Show Organisers to use their discretion as to the requirement for a mounted presentation for Single and Two Phase competitions and their decision to be announced prior to the start of the competition.
 - (b) Altering an obstacle on the course (Rule 157.2).
 - (c) Misusing the whip (Rule 102.8).
 - (d) Mis-use of saddlery or equipment (Rule 102.1)
2. A competitor who is disqualified must leave the arena immediately and forfeits all prizes, rosettes, awards and qualifications to which he/she might otherwise be entitled. The result of the competition will be amended accordingly.
3. The decision of any Judge to disqualify a Member from the show, competition or further show pursuant to Rule 96 is final, save where Rule 82 applies.
- 4 Except as stated in Rule 202.5, the Judge is not empowered to disqualify a competitor on the grounds of ineligibility for the competition. In all such cases, the matter must be referred after the show to the Chief Executive, who will, if necessary, take action in accordance with Rule 84 or Rule 91.
- 5 The Judge may disqualify a competitor if he/she is fully satisfied that the competitor is not a Member of British Showjumping is currently suspended from the competitive rights of membership (Rule 32.3). A report must be made to the Chief Executive who may take further action in accordance with Rule 84.

203 Retiring

- 1 A competitor who has started his/her round may retire without completing the course for any of the following reasons:
 - 1 Safety.
 - 2 Fitness of horse or rider.
 - 3 Failure of saddlery or equipment.
 - 4 Severity of the obstacles.
 - 5 Deterioration of the going.
 - 6 When he has no chance of winning a prize.

If in the opinion of the Judge, a horse or rider is unfit to compete, the Judge may prevent the competitor from starting or may curtail their round.
- 2 A competitor who decides to retire must signal his intention to the Judge by raising his hand or whip.
- 3 Standards
 - 1 The Judge may introduce a standard at any time after the number of competitors who have completed the course exceeds the number of prizes (including additional prizes awarded in accordance with Rule 76.5).
 - 2 In competitions judged under Table A, the standard will be set in the form of a number of faults which must not be less than the score of the competitor who would receive the lowest prize if no further competitors were to complete the course after the introduction of the standard. Provided this criterion is maintained, the standard may be reduced progressively during the course of the competition.

- 3 In competitions judged under Table C, the standard will be set as a time one second in excess of the total time of the competitor who would receive the lowest prize if no further competitors were to complete the course after the introduction of the standard.
 - 4 In a qualifying competition in which the number to qualify or to receive qualifying points exceeds the number of prizes, care must be taken not to prejudice the qualification by the premature introduction of a standard.
 - 5 Standards should not normally be introduced in pony competitions nor in competitions confined to horses that have not won £100 or to those which have not won any lesser amount. A standard of less than eight faults must not be introduced in such competitions under Table A.
 - 6 Once a standard has been introduced the Judge will retire any competitor as soon as his score or time exceeds the standard.
- 4 In the absence of a standard, the Judge may at his/her discretion retire any competitor who has no chance of winning a prize and whose continued presence in the arena is holding up the progress of the competition unduly.
 - 5 Before leaving the arena, a competitor who retires or is retired following a refusal or run-out, may make up to two attempts to jump any single obstacle in the arena in the direction indicated on the course plan.

204 Withdrawing

- 1 A competitor who has indicated his/her intention to compete by declaring or by giving his/her number to the collecting ring steward or who has qualified to start in the next round or jump-off of a competition may withdraw before starting, provided he informs the Judge of his/her intention to do so.
- 2 Competitors who withdraw from a jump-off are placed after those who are eliminated or retire during that jump-off, except in the Puissance and Six Bar competitions (Rules 278.5 & 279.8).

205 Reports

The name of any competitor who retires in accordance with Rule 203.1 or withdraws from a second round or jump-off in accordance with Rule 204.1 and the names of his/her horse and of the horse's owner are to be recorded by the Judge on a separate report and sent to British Showjumping at Meriden.

Errors

211 Knock Down

- 1 An obstacle is considered to have been knocked down when through the fault of the horse or rider:
 - 1 The whole or any part of it falls, even if the part which falls is subsequently arrested in its fall before reaching the ground.
 - 2 At least one of its ends no longer rests on any part of its support.
 - 3 Any arrangement, including a wing or support intended to maintain the stability of the obstacle and forming an integral part of it falls; or the pillars or wings of a wall placed inside the flags (if used) falls.
- 2 When an obstacle, or part of an obstacle, is composed of several elements placed one on top of the other and in the same vertical plane, the knock down of the top element alone is penalised. A lower element is not deemed to be in the same vertical plane unless its front edge lies in the same vertical plane as the front edge of the top element. Knocking down an intermediate filler, such

as a brush or small wall, between the major elements of a spread obstacle, incurs no penalty, unless the brush or filler is higher than the major elements, notwithstanding that it stands in a separate vertical plane.

In example A, the wall is considered to be in the same vertical plane as the poles above it. In examples B and C, it is not.

- 3** Penalties for knock downs are only incurred in respect of obstacles that are knocked down as a direct result of having been jumped in the correct order and provided the obstacle has started to fall before the competitor crosses the finishing line.
- 4** Touches and displacements, in whatever direction, do not count. If the Judge is in doubt he/she should give the benefit of his/her doubt to the competitor.
- 5** The competitor cannot be penalised for more than one knock down per attempt no matter how much of the obstacle is knocked down.
- 6** FEI Safety Cups are mandatory as per Rule 132.

212 Disobediences

- 1** The following are considered as disobediences and are penalised as such:
 - 1 Refusals.
 - 2 Run outs (including jumping the wing).
 - 3 Resistances (including halts).
 - 4 Circles.
 - 5 Passing outside the flags or markers of the finishing line.
- 2** Under Table A, the first disobedience during each round anywhere on the course incurs four faults, the second such disobedience incurs elimination. Under Table C, first disobedience is not penalised, but the second disobedience during each round anywhere on the course incurs elimination.
- 3** Disobediences during interrupted time are not penalised.
- 4** The following are not considered to be disobediences:
 - 1 Circling after a disobedience to get into position to re-attempt the obstacle.
 - 2 Approaching an obstacle at an angle and/or turning sharply to attempt it without going past it.

5 Refusal

- 1 It is a refusal when a horse stops or fails to take off at an obstacle, whether or not the obstacle is knocked down or displaced.
- 2 It is a refusal if the horse, in stopping, slides through the obstacle and knocks it down. It is for the Judge to decide that this has happened and if so to ring the bell. If the bell is not rung, the competitor must continue, having been penalised for a knock down only.
- 3 Stopping in front of an obstacle without knocking it down, followed immediately by a standing jump is not penalised as a refusal.

6 Run Out

- 1 It is a run out when the horse or any part of the horse passes to one side of the obstacle to be jumped and in so doing crosses the extended line of the ground line of the obstacle, unless Rule 151.2 applies.
- 2 It is also a run out if the horse jumps the wing of the obstacle, whether or not the wing is knocked down.
- 3 Following a run out the rider must return and attempt the obstacle again. Failure to do so incurs elimination.

7 Resistance

- 1 It is a resistance when the horse for whatever reason ceases to go forward, halts, rears, turns on the spot or steps back, even if this occurs as the result of deliberate action by the rider (for example halting to adjust saddlery or hat).
- 2 Uninterrupted resistances are penalised as a single disobedience but if after retaking the track the horse again resists this is penalised as a separate disobedience.

8 Circle

It is a circle if the competitor deviates from the course as set out on the course plan and in so doing crosses over his/her previous track. Following a circle, any further circles made without retaking the track are not penalised but if after retaking the track, the competitor again circles this is penalised as a separate disobedience.

213 Fall

- 1 One fall eliminates horse and rider. The rider may not attempt another fence but must leave the arena immediately, mounted or dismounted.
- 2 A rider is considered to have fallen when, either voluntarily or involuntarily, he/she is separated from his/her horse, which has not fallen, in such a way that he/she touches the ground or finds it necessary, in order to get back into the saddle, to use some form of support or outside assistance. If it is not clear that the rider has used some form of support or outside assistance to prevent his/her fall, the benefit of doubt must be given to the rider.

A horse is considered to have fallen when the shoulder and quarters have touched the ground or the obstacle and the ground.

- 3 The first fall of horse and/or rider after entering the arena and before completing the course incurs elimination in any competition.

214 Dismounting

A competitor who dismounts for any reason, from entering the arena until going through the finish, (for example, to pick up a dropped whip, adjust saddlery, etc.) will be eliminated.

Access To The Arena

221 Authorised Access

Competitors are only allowed to enter the arena under the following circumstances:

- 1 To walk the course dismounted (Rule 156.2).
- 2 When called to commence their round.
- 3 When called to parade before or after a competition for ceremonial, prize giving, publicity or other special purposes.
- 4 To lead another competitor into the arena (Rule 233.2).
- 5 To render authorised assistance (Rules 261.2, 261.3).
- 6 With special permission of the Judge.

222 Unauthorised Access

- 1 Infringements of Rule 221 may incur elimination at the discretion of the Judge.
- 2 A Member of British Showjumping who enters the arena without authorisation may also be found in breach of Rule 82.11 and his/her conduct may be reported to the Chief Executive who may initiate disciplinary proceedings.

Starting

231 Order Of Starting

- 1 In British Showjumping Second Rounds and Direct Qualifiers and in single round competitions (i.e. Table C or A4) in which time is the deciding factor, the order of starting must be drawn. This also applies to the warm up class preceeding the allocated British Showjumping Second Round or Direct Qualifier. See Rule 290.14. At the discretion of the Show Organising Committee the order may also be drawn for other competitions. In the event that the order is drawn for competitions under Table A8 or Table A7 it is not necessary to make another draw for the jump off. Where there is more than one competition for the same category of horses requiring a drawn order at the same show, the drawn order for the first competition must be rotated by a minimum of five places for each subsequent competition or a fresh draw made.
- 2 When time is the deciding factor, the order of starting in a jump-off must be drawn by the Judge immediately before the jump-off, unless Rule 231.1 applies and provided the Judges are satisfied that the original draw has been made satisfactorily. A minimum of five minutes must be allowed between the announcement of the drawn order and requiring the first competitor to enter the arena for the jump-off.
- 3 When the order of starting has been drawn, a competitor may only compete out of order by special permission of the Judge. When time is the deciding factor the Judge will not normally allow a competitor to start in a later position in the order from that in which he was originally drawn.

- 4 When late entries are accepted after the order has been drawn, the order in which they are to start must be drawn separately and they must start before all entries in the original drawn order.
- 5 Starting out of order may incur elimination at the Judge's discretion.

232 Rate of Starting

- 1 If the Judge is dissatisfied with the rate at which competitors are presenting themselves to start in a competition for which the starting order has not been drawn, he will issue one public warning to competitors. After an interval of five minutes the three minute public warning must be enforced. At the end of a three minute interval he/she **may** declare the competition closed.
- 2 The result will be taken from those who have completed the competition; if none, the Judge will declare the competition null and void.

233 Entering the Arena

- 1 Competitors must enter the arena mounted and through the designated entrance. Failure to do so without prior permission of the Judge may incur elimination at the Judge's discretion.
- 2 Competitors may be led into the arena by an assistant who may be mounted or on foot. The assistant must leave the arena immediately the competitor is inside.
- 3 Failure to enter the arena within one minute of being called upon to do so incurs elimination at the Judge's discretion.

234 Commencing the Round

- 1 The starting line may be crossed and recrossed while waiting for the starting bell. Crossing the starting line before the starting bell and then jumping or attempting to jump the first obstacle, without first recrossing the starting line after the bell, incurs elimination.
- 2 Crossing the starting line in the wrong direction is not penalised provided it is subsequently recrossed before attempting the first obstacle in the direction indicated on the course plan.
- 3 The round commences, when, following the starting bell, the mounted competitor first crosses the starting line in the direction indicated on the course plan but the time might start earlier if the 45 second count down rule is applied.
- 4 Failure to commence the round within 45 seconds of the starting bell incurs elimination at the Judge's discretion unless the count down system is being used.

Stopping During A Round

241 Signal To Stop

If for any reason a competitor must be stopped by the Judge during the course of a round due to circumstances over which the competitor has no control (for example, an obstacle blown down or not re-erected in time) the bell will be rung.

242 Ignoring The Bell

- 1 If the competitor ignores the bell and continues his round, the Judge must decide whether to eliminate him or whether in view of any special circumstances he should not be penalised.
- 2 If the competitor is not eliminated for ignoring the bell, all faults and penalties incurred after the bell was rung will be included in his/her score.

243 Stopping Voluntarily

- 1 A competitor who decides that he/she cannot continue his/her round because the course is obstructed or because an obstacle is incorrectly erected may stop voluntarily at that obstacle and signal to the Judge by pointing clearly with his whip or hand at the obstruction or obstacle concerned.
- 2 The bell will be rung and the obstruction, if any, will be removed and/or the obstacle will be checked and if necessary re-erected.
- 3 The competitor will not be penalised unless the Judge decides that the course was not obstructed or that the obstacle was correctly erected, in which case the competitor will be penalised as for a disobedience.

244 Continuing after stopping

- 1 A competitor who is stopped by the Judge or who stops voluntarily in accordance with Rule 241 or Rule 243 must not continue his/her round until the bell is rung again to instruct him/her to do so.
- 2 Continuing before the bell and/or continuing from a point nearer to the next obstacle or to the finishing line than the point at which he pulled up incurs elimination.

245 Stopping and restarting the Clock

The clock is stopped when the competitor pulls up and is restarted once the bell is rung at the moment the horse/pony leaves the ground at the obstacle where the competitor pulled up. While the clock is stopped, the normal Rules for interrupted time apply. In the case of a competitor who stops voluntarily in accordance with Rule 243, the Judge may at his/her discretion deduct the appropriate seconds from the competitor's time to compensate for any delay in stopping the clock.

246 Restarting the Whole Course

- 1 Only in very exceptional circumstances (for example, the failure of both automatic timing and stop watch) will a competitor who has been stopped be allowed or required to start the whole course again. If in such circumstances he/she does start the whole course again, his/her previous score will be disregarded.
- 2 A competitor who has completed the course under Table A against the clock and who is required to restart because his/her time has not been taken may elect not to do so, in which case he/she will be placed **equal with the highest**

placed competitor with whom he/she would otherwise be placed equal on faults alone.

Penalties At Obstacles

251 Penalties At Obstacles Under Table A

- 1 A knock down incurs four faults.
- 2 A fall at an obstacle anywhere on the course during the round incurs elimination.
- 3 A disobedience at an obstacle incurs four faults for the first disobedience anywhere on the course during the same round and elimination for the second such disobedience.
- 4 Disturbing the obstacle as the result of a disobedience.
 - (a) A disobedience that disturbs the obstacle, including the displacement of a lower element, such that the obstacle must be re-erected and/or checked incurs a six second time penalty.
 - (b) The bell is rung and the clock is stopped immediately.
 - (c) If, as a result of a disobedience, a competitor displaces or knocks down any obstacle or a flag defining the limits of the water jump and where the nature of the obstacle is changed by knocking down the flag, the bell is rung and the clock is stopped until the obstacle has been re-built. When the obstacle has been re-built the bell is rung to indicate that the course is ready and that the competitor can continue the round. The competitor is penalised for a refusal and a time correction of six seconds is added to the time taken by the competitor to complete his/her round. The clock is re-started at the moment when the horse leaves the ground at the obstacle where the refusal occurred except if a disobedience where the knock-down occurs at the second or subsequent part of a combination then the clock is restarted when the horse leaves the ground at the first element of the combination.
 - (d) Re-attempting the obstacle before the bell has been rung a second time incurs elimination.
 - (e) Circling after the bell to start is not penalised.

252 Penalties at Closed Combinations Under Table A

- 1 Each obstacle of a closed combination is judged as a single obstacle (Rule 251).
- 2 If, having jumped the first obstacle horse and/or rider leave the enclosure of the closed combination by any route other than jumping the remaining obstacles of the combination in the correct order they incur elimination.

TABLE 253

Error	Time Penalties
Obstacle A disturbed by disobedience	Six seconds
Obstacle A knocked down or disturbed followed by disobedience at Obstacle B without disturbing Obstacle B	Six seconds
Obstacle B disturbed by disobedience regardless of state of Obstacle A	Six seconds
Obstacle A and/or B knocked down or disturbed followed by disobedience at Obstacle C without disturbing Obstacle C	Six seconds
Obstacle C disturbed by disobedience regardless of state of Obstacles A and B	Six seconds
Similar errors with disobedience between any further obstacles of the combination	Six seconds

253 Penalties at Open Combinations Under Table A

- Each obstacle of an open combination is judged as a single obstacle, but following a disobedience all obstacles of the combination must be re-attempted in the correct order and faults and time penalties are cumulative over each obstacle at each attempt. Failure to re-attempt all obstacles incurs elimination.
- If there is a disobedience at obstacle B or subsequent obstacles of a combination without disturbance of that obstacle and any of the previous obstacles have been disturbed and require re-erection or checking, the procedures for ringing the bell and stopping the clock in Rule 251.4 must be applied.
- Time penalties in open combinations are incurred in accordance with Table 253.

TABLE 254

Error	Faults
1 Landing with one or more feet on the lath, tape or strip	Four
2 Landing with one or more feet in the water	Four
3 Knocking down the top element (if any) placed between the take off element and the lath or strip (Rule 139.8) without landing in the water or on the lath, tape or strip	Four
4 Exiting at the side of the obstacle between the corner flags with or without any of the above errors	Penalised as a run out only
5 Knocking down or displacing the take off element without a disobedience and without any of the errors 1 to 4	Not penalised

254 Penalties at the Water Jump Under/Jump Over Water Table A

- The water jump must not be judged from the Judge's box. A separate water jump Judge must sit or stand in the vicinity of the water jump where he/she can see clearly the lath, tape or strip on the landing side.

- 2 Faults at the water jump are incurred in accordance with Table 254. A maximum of four faults is incurred for any combination of errors 1 to 3 as overleaf.
- 3 Disobediences at the water jump are penalised by faults, elimination and/or six seconds time penalty as for single obstacles. The obstacle has been disturbed if the take off element, single pole or any of the flags have been knocked down or displaced and the procedures in Rule 251.4 must be applied if this occurs as the result of a disobedience.
- 4 The water jump Judge must use a distinctive signal to inform the Judge's box if four faults has been incurred and a separate distinctive signal if there has been a disobedience.
- 5 The water jump Judge is to keep a written record of the competitors penalised at the water jump, showing the penalties incurred.
- 6 A water jump with more than two poles placed between the take off element and the lath, tape or strip, will be judged as a **jump over water** (normal spread obstacle) whether it has or has not a lath placed on the landing side. Knocking down any element of such an obstacle including the take-off element incurs four faults and displacing any element as the result of a disobedience incurs a six second time penalty. Landing in the water or on the lath, tape or strip is not penalised.

255 Penalties at Obstacles Under Table C

- 1 Obstacles are judged under Table C in the same manner as they are judged under Table A, except that four seconds time penalty is incurred for each knock down and/or for one or more of errors 1 to 3 in Table 254 at the water jump and that first disobediences anywhere on the course during the round are not penalised (Rules 183, 251, 254).
- 2 Time penalties for disturbing an obstacle as the result of a disobedience are incurred on the same scale as under Table A, in addition to time penalties incurred under Rule 255.1.

256 Jumping the Wrong Course

- 1 Jumping or attempting to jump an obstacle in the wrong order or in the wrong direction as indicated on the course plan or omitting an obstacle included on the course plan incurs elimination.
- 2 Jumping or attempting to jump an obstacle which does not form part of the course, whether before starting, after finishing or during a round incurs elimination, jumping one additional obstacle which is sited within 10m (11 yds) of the finish is not penalised.
- 3 The term 'jumping an obstacle', in the context of Rules 256.1 and 256.2, includes passing over or through the site of an obstacle which has been knocked down or demolished.

257 Penalties at Alternative Obstacles

Where alternative obstacles are provided and marked as such on the course plan (Rule 153.2), attempting the alternative obstacle following a disobedience at the other obstacle is permitted. However, if the first obstacle attempted is disturbed as the result of a disobedience, the procedure in Rule 251.4 must be followed and attempting either obstacle before the bell to restart incurs elimination.

258 Failing to Jump the Next Obstacle within 45 Seconds

A competitor who fails to jump the next obstacle on the course within 45 seconds, excluding interrupted time, incurs elimination.

Other Penalties

261 Outside Assistance

- 1 At any time after the signal to start has been given any outside assistance to a competitor by voice, signs, electronic, training device or remote assistance, except as listed below, whether solicited or not, which in the opinion of the Judge might improve the competitor's performance, incurs elimination at the Judge's discretion.
- 2 The following acts of assistance are not penalised at any time:
 - 1 Medical or veterinary assistance.
 - 2 Assistance given in the prevention of danger to competitors or public.
 - 3 Picking up and handing back to a mounted competitor his/her spectacles.

263 Knocking the Timing Equipment

A horse or rider coming into contact with the automatic timing equipment before, during and after their round, including interrupted time, incurs elimination, except as a result of contact with the cable only.

264 Improperly Leaving the Arena

A competitor/horse leaving the arena before the completion of his/her round, including prior to starting, will be eliminated.

265 Finishing

- 1 To complete the course, the competitor must cross the finishing line mounted in the correct direction. Failure to do so incurs elimination.
- 2 Passing outside the finishing line flags or markers is penalised as a run out and the competitor must return to pass between them in the correct direction if not eliminated for a second disobedience.

266 Leaving the Arena

Having completed the course the competitor must leave the arena by the designated exit. Failure to do so incurs elimination, except in cases resulting from injury to horse or rider.

267 Chin Strap

Jumping or attempting to jump any obstacle or passing through the finish without a chinstrap correctly fastened incurs elimination unless the Judge decides that the competitor was so far committed to jumping the obstacle at the moment when the chin-strap came undone that he/she could not be expected to pull up before attempting the obstacle. See Rule 101.3 and 212.7.1.

273 Top Score

- 1 The order of starting must be drawn.
- 2 Each obstacle is clearly marked with a number of points from 10 to 120 according to its difficulty. Water jumps and combination obstacles are not allowed.
- 3 The time allowed is 60 seconds in an outdoor arena and 45 seconds in an indoor one.
- 4 The round starts when the competitor crosses the starting line in either direction.
- 5 The competitor jumps what obstacles he/she chooses and may do so in either direction.
- 6 The competitor scores the number of points allotted to each obstacle provided it is jumped clear. No points are scored for an obstacle knocked down (Rule 211).
- 7 An obstacle that is knocked down or displaced for any reason is not rebuilt. This includes the displacement of a lower element in the same vertical plane.
- 8 Each obstacle may be jumped twice to score. Jumping, voluntarily or otherwise, an obstacle for the third or subsequent time or jumping or passing through an obstacle already knocked down or displaced, including the displacement of a lower element, does not incur elimination but scores no points.
- 9 Disobediences are not penalised since they decrease the time available in which to score. Following a disobedience a competitor may either attempt the same obstacle again or proceed to the next obstacle of his/her choice. A second or subsequent disobedience does not incur elimination but the Judge may retire a competitor if it becomes apparent that repeated disobediences have destroyed all chance of the competitor featuring in the prize list.
- 10 The bell is rung as soon as the time allowed is reached. The competitor must then cross the finishing line in either direction to allow his/her time to be recorded. If he/she does not cross the finishing line, he/she is placed last of the competitors with the same number of points.
- 11 The number of points allotted to the last obstacle jumped clear will be included in the competitor's score provided the horse has already started to take off at the moment when the time allowed is reached.
- 12 Jumping an additional obstacle or obstacles after the bell has been rung is not penalised.

- 13** An additional obstacle may be included in the course, to be known as the Joker. The Joker must be built as an upright (not a spread) obstacle and should be significantly higher than the other obstacles (Rules 134.3, 135.4). The Joker may be jumped twice to score. If jumped clear, 200 points are added to the score, but if the Joker is knocked down 200 points are deducted from the score.
- 14** In the event of equality of points, time decides.

274 Accumulator

- 1** The order of starting must be drawn.
- 2** This competition takes place over six, eight or 10 obstacles which are progressively more difficult. No combination obstacles are allowed. The progressive difficulty is not solely due to the height and spread of the obstacles, but also to the difficulty of the track.
- 3** Speed 375m per minute in outdoor arenas, 350m per minute in indoor arenas. Ponies 350m per minute indoors and outdoors.
- 4** Points are awarded as follows:
One point for obstacle No. 1 cleared, two points for No. 2, three points for No. 3 etc. with total of 21, 36 or 55 points. No point is awarded for an obstacle knocked down. Faults other than knock-downs are penalised as for Table A and any of these faults, including time faults, are converted into points and deducted from any jumping points scored.
- 5** In the event of equality of points for first place, there will be a jump-off against the clock over a shortened course, over obstacles that may be increased in height and/or spread. The obstacles in the jump-off must be jumped in the same order as in the first round and retain their respective points allotted in the first round.
- 6** This competition may also take place directly against the clock.
- 7** For the last obstacle of the course, an alternative obstacle may be provided, of which one part may be designated the Joker. The Joker must be more difficult than the alternative obstacle and carry double points. If the Joker is knocked down, the points must be deducted from the total.

275 Power and Speed

- 1** The starting order must be drawn.
- 2** The course is divided into two sections. The first or power section consists of five to seven obstacles of progressively increasing severity designed to test power and precision at each obstacle individually. This section is jumped as an Accumulator competition in accordance with Rule 274 not against the clock with a time limit of two minutes.
- 3** On completion of the power section the bell will be rung if the competitor has NOT scored the maximum possible number of points over this section. The competitor

must then retire. If the bell is not rung, the competitor proceeds straight to the second, or speed, section of the course. This consists of six to eight obstacles to be jumped under Table A4 or Table C. Speed 400m per minute outdoors and 350m per minute indoors. Ponies, 350m per minute indoors and outdoors.

- 4 The start and finish must be indicated separately for each section. Finish of power section to be start of speed section. Automatic timing is only obligatory for the speed section.
- 5 The competition is decided by faults and time over the speed section. In the event of insufficient competitors reaching the speed section, minor placings are decided by the highest number of points scored over the power section. If no competitor reaches the speed section and in the event of equality of points over the power section, there will be a jump-off over the speed section to decide the winner.

276 Take Your Own Line

- 1 The starting order must be drawn.
- 2 The competition is judged under Table C.
- 3 The obstacles are numbered for judging purposes only. The competitor may jump them in any order and in either direction. Water jumps and combinations are not permitted.
- 4 The starting and finishing lines may be crossed in either direction.
- 5 Following a disobedience at an obstacle the competitor is not required to re-attempt the same obstacle immediately, unless it has been disturbed, in which case the procedure in Rule 251.4 must be applied.
- 6 A second or subsequent disobedience does not incur elimination, but the Judge may retire a competitor if it becomes apparent that repeated disobediences have destroyed all chance of the competitor featuring in the prize list.
- 7 Failure to jump all the obstacles designated on the course plan or jumping any obstacle more than once incurs elimination.

277 Fault and Out

- 1 The starting order must be drawn.
- 2 Combinations are not allowed.
- 3 Three points are scored for each obstacle jumped clear and one point is scored for each obstacle knocked down.
- 4 As soon as the competitor makes any error that normally incurs a penalty under Table A, the bell is rung to terminate the round.
- 5 If the error was a knock down, the competitor must then cross the finishing line in either direction and the clock is then stopped.

- 6** In the event of any other error the round is terminated immediately and the time is not recorded.
- 7** This competition may be organised in two ways:
Either a set number of obstacles with a time limit of two minutes.
If the competitor completes the course without error the clock is stopped when the competitor crosses the finishing line.

Or alternatively:
- 8** Time allowed:
 - 1 This competition may also be scheduled with a time allowed, which should not exceed 90 seconds in outdoor arenas nor 60 seconds indoors.
 - 2 If the competitor makes an error before the time allowed is reached, Rules 277.4 to 277.6 apply.
 - 3 If the competitor completes the course without error within the time allowed he/she may continue to jump the course a second time until he/she makes an error or until the time allowed is reached.
 - 4 When the time allowed is reached the bell is rung and the competitor must then cross the finishing line in either direction.
 - 5 The competitor will be awarded points for the last obstacle jumped provided the horse has already started to take off at the moment when the time allowed is reached.
- 9** Competitors are placed on points. In the event of equality of points, competitors who completed the course and those whose rounds terminated following a knock down are placed on points and time above those competitors whose rounds terminated with any other error, who are placed equal.

278 Puissance

- 1** This competition takes place over an initial course of four to six large single obstacles.
- 2** The competition is judged under Table A, not against the clock, with a time limit of two minutes.
- 3** In the event of equality of faults for first place, there will be up to four successive jumps-off, not against the clock, over two obstacles only, which must be a wall and a spread obstacle (not a water jump). After the first round an optional obstacle must be provided in the arena which the competitor may attempt to jump once in each jump-off at his/her discretion. Errors at this obstacle are not penalised.
- 4** The Judge at his/her discretion may terminate the competition after the third jump-off. In the event of equality of faults in the final jump-off competitors are placed equal and divide the prize money.
- 5** Competitors who withdraw from or retire during a jump-off are placed equal with those who are eliminated in the same jump-off (Rules 203, 204).

Not allowed for ponies.

279 Six Bars

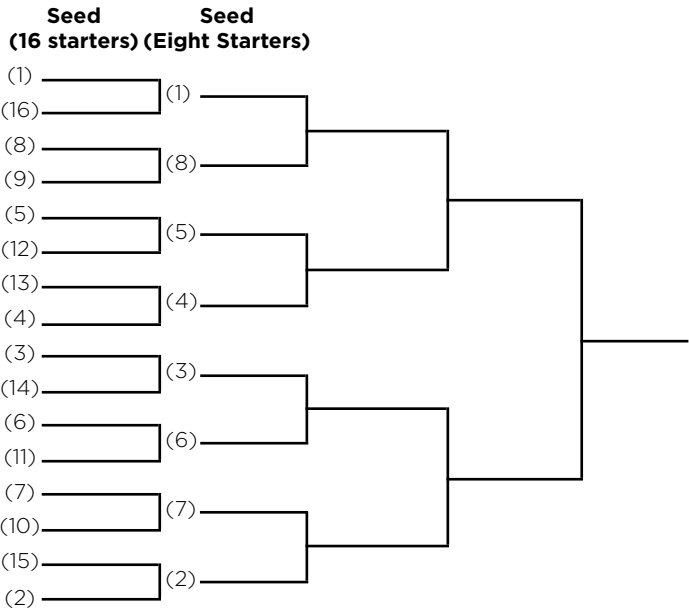

- 1** The course for this competition comprises six vertical obstacles placed in a straight line with two non-jumping strides between each obstacle. In indoor arenas the first two obstacles may be placed on one straight line and the last four obstacles on a different straight line. The top element of each obstacle must be a pole.
- 2** No obstacle may be set at a lower height than the obstacle preceding it.
- 3** The competition is judged under Table A not against the clock with a time limit of two minutes.
- 4** In the event of a disobedience, the competitor must restart the course at the obstacle where the error occurred, but may make his/her approach at an angle from outside the space between the obstacles and is not required or allowed to take any of the previous obstacles again.
- 5** If an obstacle is disturbed as the result of a disobedience, the procedure in Rule 251.4 must be applied, but no time penalty is incurred.
- 6** In the event of equality of faults for first place there will be up to four successive jumps-off not against the clock. The first jump-off must be over all six obstacles, but the course may be reduced progressively for each further jump-off to a minimum of three obstacles by removing in succession first, second and third obstacles.
- 7** The Judge at his/her discretion may terminate the competition after the third jump-off. In the event of equality of faults in the final jump-off competitors are placed equal and divide the prize money.
- 8** Competitors who withdraw from or retire during a jump-off are placed equal with those who are eliminated in the same jump-off (Rules 203, 204).

Not allowed for ponies.

280 Knock Out

- 1** This competition takes place as a knock-out tournament in which two competitors at a time compete over separate courses simultaneously.
- 2** The competition is judged under Table C, but with time penalties of two seconds instead of four seconds (see also Rule 280.5).
- 3** The two courses are set side by side in the same arena and may either be identical or built as mirror images of each other. The design of courses for this competition requires special skill and should not be attempted for the first time without consulting an experienced Course Builder. This competition is not allowed in arenas in which the dimensions are less than 60mx24m.
- 4** The start must be supervised by a separate Judge who will ensure that both competitors make a simultaneous start. Choice of course will be decided between the two competitors by the starting judge tossing a coin.
- 5** Each course should preferably be timed with separate automatic timing, if this is available. If not, the competition must be judged under Table A, an extra Judge must stand in line with the finish and this Judge's decision of the winner from each pair of competitors, if equal on faults, shall be final.
- 6** Obstacles disturbed or knocked down as the result of a disobedience will not be re-erected or adjusted and will be penalised as knock downs.
- 7** The winner from each pair of competitors proceeds to the next round of the competition as indicated in Table 280, until the final pair of competitors meet in the last round to decide the winner of the competition.
- 8** In the event of equality between a pair of competitors, they will jump again against each other.
- 9** The first round of this competition requires either eight or 16 competitors. The schedule must state how these competitors are to be selected, which may be as a result of a draw or based on the results of a qualifying competition or competitions. In the latter case the competitor may ride the horse on which he/she qualified or, if he/she so wishes, may substitute in accordance with Rule 79.3. Competitors may be seeded in the tournament draw on their qualifying results as indicated in Table 280. Rule 288 should not be used as a qualifying competition for the Knock Out – if a single qualifying competition is required, it should normally be scheduled under Table C.

TABLE 280

281 Team

- 1 This competition is for teams of three or four competitors as stated in the schedule.
- 2 It may be judged under Table A over two rounds, not against the clock, followed by one jump-off against the clock; or under Table A7.
- 3 The team order of starting must be drawn. The first competitor from each team then starts in the position drawn by his/her team, the second competitor from the team drawn first following the first competitor from the team drawn last and so on.
- 4 The faults of the best three competitors in the team in each round are added together to determine the team score for the round. In competitions over two rounds each team's score for the first round is added to its score for the second round.
- 5 In the event of equality of team scores for first place or a qualifying place after two rounds (one round if the competition is judged under Table A7) the teams sharing first place will jump-off against the clock.

- 6 Except as stated in Rule 281.8 below, all members of a team may take part in the jump-off whether or not they have competed in the previous round. The faults of the best three competitors in the team are added together to determine the team score for the jump-off. In the event of equality of team scores for any place in the jump-off, the times of the three competitors with the fewest faults in each team are added together to decide the result on time.
- 7 A competitor who is eliminated or retires is awarded 20 faults plus the faults of the worst horse in any team to complete the course during the same round and may start in the next round or jump-off. The elimination of more than one team member eliminates the team.
- 8 A competitor who is disqualified (Rule 202) cannot be included in the team score for the round in which he is disqualified and he may take no further part in the competition. If the disqualification reduces the team to less than three competitors, the team is eliminated and takes no further part in the competition.
- 9 If a team cannot improve its placing in any round or jump-off after the team's third competitor has completed the course the fourth competitor of the team may be withdrawn from that round or jump-off. A competitor who is withdrawn may still take part in a subsequent round or jump-off.

282 Baton Relay

- 1 This competition is for teams of two or more competitors as stated in the schedule.
- 2 The competition is judged under Table C and the starting order must be drawn.
- 3 All members of the team enter the arena together. The first competitor jumps the course and having jumped the last obstacle passes the baton (or whip) to the next member of the team, who then jumps the course and so on. Failure to pass the baton incurs elimination.
- 4 If a competitor makes an error for which the normal penalty is elimination, the bell is rung and the next member of the team takes over the baton and completes the course before starting his/her own round. If the last competitor in the team makes such an error, the first member of the team takes over and so on.
- 5 If the baton is dropped, the competitor must dismount (without penalty) recover the baton and remount before continuing his/her round or passing the baton to the next member of the team. Failure to do so incurs elimination.
- 6 The first competitor only of each team is required to cross the starting line and the last competitor only of each team to cross the finishing line.
- 7 The team time is the time from the first competitor crossing the starting line to the last competitor crossing the finishing line minus interrupted time plus time penalties.

283 Rescue Relay

- 1 This competition is for teams of two competitors.
- 2 Points are scored in accordance with Rule 277 (Fault and Out). The order of starting must be drawn.
- 3 The time allowed is two minutes in an outdoor arena, 90 seconds indoors.
- 4 Both members of the team enter the arena together. The first competitor crosses the starting line and jumps the course until he/she makes an error, continuing to jump the course a second time if still clear as in Rule 277.8.3.
- 5 As soon as the competitor makes an error the bell is rung. The other team member (the rescuer) must take over and continue the course at the next obstacle beyond the point at which the error occurred. Failure to do so incurs elimination.
- 6 Each team member continues to rescue the other whenever an error is made.
- 7 At the end of the time allowed the bell is rung and the competitor who is then jumping must cross the finishing line. Failure to do so incurs the elimination of the team.
- 8 The competition is decided on points. In the event of equality of points time between the first competitor crossing the starting line and the last competitor crossing the finishing line after the time allowed has been reached decides.

- 4** The height of jump-off for the lower grade or smaller pony should not be altered from the height of fences for the higher grade or bigger pony first round. The height of jumps for the higher grade or bigger pony shall be raised by the same proportion as the lower grade or smaller pony jump off. If the competition is run under Table A8, the procedure is repeated.
- 5** In handicap competitions restricted to heights of ponies the Course Builder will alter the course distances accordingly.
- 6** When time is the deciding factor, the order of starting must be drawn separately for each grade or category.

The heights and spreads must not be exceeded and may be reduced only in the event of adverse weather conditions or going and then by not more than 10cms in height or 15cms in spread. Special or unusual obstacles, "Devil's Dykes", "Derby Banks" etc., not specified in the Rule for the competition must not be included in the course for direct qualifiers or Second Round competitions qualifying for the Horse of the Year Show, Royal International Horse Show, Hickstead, Olympia or The British Showjumping National Championships. - 2** In certain qualifying competitions judged under Tables A1, A6, A7, A8, A9, A10, Single Phase and Two Phase, (see 290.5 below) but NOT under Table A4, the specification for each competition sets the minimum standard required to qualify.
- 3** It is the responsibility of the Judge to ensure that the course is built to the standard specified in the Rules for the competition. Nevertheless, if through any error or unforeseen circumstance it is subsequently found that the course as jumped had not been built correctly, this will not invalidate any qualifications obtained as a result of the competition.
- 4** Competitors in qualifying competitions will be placed for prize money in accordance with Rules 191 to 194. In qualifying competitions judged under Table A7, in the event of equality of both faults and time for the lowest qualifying position, those with equality for this position will all qualify.
- 5** In qualifying competitions, with the exception of National Amateur First Rounds, judged under single phase or two phase, the first section of the course is to be regarded as the initial course and the second section as the jump-off against the clock for the purpose of this Rule.
- 6** In qualifying competitions judged under Tables A6, A8 and A9 and A10, in the event of equality of faults and time for the lowest qualifying position, those placed equal for this position will all qualify. Competitors will be placed for prize money in accordance with Rules 191.3 to 191.5.
- 7** In qualifying competitions judged under conditions other than Tables A6, A7, A8, A9, A10, single phase and two phase, the method of determining the qualifiers must be stated in full in the rules for each competition.

- 9** Lost Direct or Second Round qualifications, due to elapsed membership and/or registration or exceptional circumstances as deemed by the Chief Executive, may

be bought back at a cost of £200 per qualification. However, reinstatement will only be actioned following receipt of the appropriate fee and the membership and/or registration being updated.

Any show wishing to run a Championship Series must submit a full request in writing to Head Office prior to incorporating into any schedules or generating any formal advertisements.

- 12** A horse/pony who does not complete the first round of a competition is not eligible for an award or qualifying place. Please also refer to Rule 76.15.

- 13** If the Judge's instruction to continue is not followed by competitors, no trophy will be awarded and the competitors will each only receive the prize money and the lowest placing for which they would have jumped off. There will be no qualifying place.

- 17** In instances where riders qualify multiple rides but are limited to the number of rides in a final the following applies. The rider will qualify from the first competition(s) in which they finish in qualifying position(s) (depending on number of qualifying positions available for the final). If the rider qualifies further rides in following qualifying competitions, the horse/pony will be eligible for the final, but the qualification for the rider will pass down to the next eligible rider not already qualified. A rider who qualifies multiple rides can elect which ride they choose to take to the final. Where qualification is based on horse/rider combination the horse/pony is only eligible for the final with the rider with whom it qualified.
